

Technology leader

“It’s an extraordinary achievement to be recognized by OTC for ten consecutive years. Our employees are driven by a steadfast commitment to clients and a culture of purposeful innovation. As a technology leader, we’re challenging industry conventions and rethinking how the best results are achieved. The 20k HPHT subsea choke demonstrates how we are differentiating ourselves from the competition and adding value for our clients.”

Brad Beitler, Executive Vice President Technology and R&D

2005
