Press Release

TechnipFMC Awarded Substantial iEPCI™ Contract for Eni's Maha Project in Indonesia

NEWCASTLE & HOUSTON, November 17, 2025 — TechnipFMC (NYSE: FTI) has been awarded a substantial[1] integrated Engineering, Procurement, Construction, and Installation (iEPCI™) contract by Eni SpA (ENI.MI) for the deepwater Maha project offshore Indonesia. The project represents Eni's first deployment of TechnipFMC's Subsea 2.0® configure-to-order (CTO) technology in Indonesia.

The award leverages experience gained through a series of successful projects with Eni in the region, including Jangkrik and Merakes, and will tie back to the existing Jangkrik Floating Production Unit.

Jonathan Landes, President, Subsea at TechnipFMC, commented: "This project marks another collaboration with a leading energy company to use our integrated execution model, enhanced by the benefits of our configurable product platform. The Maha development provides a significant opportunity to strengthen our relationship with Eni and deliver greater timeline certainty through the application of Subsea 2.0® technologies and integrated delivery."

TechnipFMC will design and manufacture Subsea 2.0® tree systems, flexible flowlines, a manifold, and controls, as well as install the subsea production system.

(1) For TechnipFMC, a "substantial" contract is between $250 million and $500 million. This award was included in inbound orders in the second quarter of 2025.

###

About TechnipFMC

TechnipFMC is a leading technology provider to the traditional and new energy industries, delivering fully integrated projects, products, and services.

With our proprietary technologies and comprehensive solutions, we are transforming our clients' project economics, helping them unlock new possibilities to develop energy resources while reducing carbon intensity and supporting their energy transition ambitions.

Organized in two business segments – Subsea and Surface Technologies – we will continue to advance the industry with our pioneering integrated ecosystems (such as iEPCI™, iFEED™ and iComplete®), technology leadership and digital innovation.

Each of our approximately 21,000 employees is driven by a commitment to our clients' success, and a culture of strong execution, purposeful innovation, and challenging industry conventions.

TechnipFMC uses its website as a channel of distribution of material company information. To learn more about how we are driving change in the industry, go to www.TechnipFMC.com and follow us on X @TechnipFMC.
