

FracNow™ SuperFrac™

Large Bore Check Valve System

A 90% reduction in connections, reducing flowline maintenance and management costs

TechnipFMC's proven FracNow™ SuperFrac™ Large Bore Check Valve System is a modular, single-line, high-pressure hydraulic fracturing check valve with superior low-pressure sealing capabilities. Ready to rig up on location, our SuperFrac™ Large Bore Check Valve System reduces iron connections and is easily configured to fit your frac pad design. The system is configured with 7-inch, 15k API flanges, enabling a full bore, single-line design to the zipper manifold and

trees. The FracNow™ SuperFrac™ Large Bore Check Valve System minimizes NPT and reduces time on the pad while lowering total cost of ownership.

Check Valve Specifications: API studded connection; 15k; 120 BPM rated; proprietary sealing technology; multiple upstream and downstream accessory locations

System Options: Large bore gate valve; pressure relief valve; utility skid; hydraulic controls; greasing; CyberFrac™

Why use the FracNow™ SuperFrac™ Large Bore Check Valve System?

Cost savings

- ▶ Set it and forget it—no critical path intervention required
- ▶ Eliminate flowline maintenance and management
- ▶ Fewer iron connections

Operational efficiency

- ▶ Ready onsite for fast rig up
- ▶ Easier pad-to-pad transitions
- ▶ 120 barrels a minute, 500+ stages without rebuild

Modular

- ▶ Fit-for-purpose hydraulic fracturing operations
- ▶ Customizable to location and specific frac needs
- ▶ Single-line system
