This is a free translation into English of the statutory auditors' report on the consolidated financial statements issued in French and it is provided solely for the convenience of English-speaking users.

The statutory auditors' report includes information specifically required by French law in such reports, whether modified or not. This information is presented below the audit opinion on the consolidated financial statements and includes an explanatory paragraph discussing the auditors' assessments of certain significant accounting and auditing matters. These assessments were considered for the purpose of issuing an audit opinion on the consolidated financial statements taken as a whole and not to provide separate assurance on individual account balances, transactions or disclosures.

This report also includes information relating to the specific verification of information given in the group's management report.

This report should be read in conjunction with and construed in accordance with French law and professional auditing standards applicable in France.

Statutory auditors' report on the consolidated financial statements

To the Shareholders,

In compliance with the assignment entrusted to us by your annual general meeting, we hereby report to you, for the year ended December 31, 2013, on:

- the audit of the accompanying consolidated financial statements of Technip;
- the justification of our assessments;
- the specific verification required by law.

These consolidated financial statements have been approved by the board of directors. Our role is to express an opinion on these consolidated financial statements based on our audit.

I. Opinion on the consolidated financial statements

We conducted our audit in accordance with professional standards applicable in France; those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit involves performing procedures, using sampling techniques or other methods of selection, to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made, as well as the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the consolidated financial statements give a true and fair view of the assets and liabilities and of the financial position of the group as at December 31, 2013 and of the results of its operations for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Without qualifying our opinion, we draw your attention to note 1 - Accounting principles to the consolidated financial statements presenting changes related to the application of IAS 19 (amended) "Employee benefits".

II. Justification of our assessments

In accordance with the requirements of article L. 823-9 of the French commercial code (*Code de commerce*) relating to the justification of our assessments, we bring to your attention the following matters:

As indicated in note 1.C. (a) "Use of estimates" to the consolidated financial statements, your company uses significant accounting estimates:

- As indicated in note 1.C. (b) "Long-term contracts" to the consolidated financial statements, your company uses significant accounting estimates, in particular to determine the margin at completion for each long-term contract which is based on analyses of total costs and revenues at completion, that are reviewed periodically and regularly throughout the life of contract. We reviewed the processes set up by your company in this respect, assessed the data and assumptions used as a basis for these estimates, compared the accounting estimates of the previous periods with the corresponding actual figures and ensured that note 1.C. (b) provided adequate information in this regard.
- As indicated in note 1.C. (d) "Business combinations" to the consolidated financial statements, your company annually carries impairment tests on goodwill on the basis of the estimates of future cash flows generated by the activities on which these goodwill are allocated. The assumptions used are based on the business plans performed by your company and approved by the board of directors. We examined the implementation of this impairment test, the assumptions made, and the calculations performed by your company, and we ensured that note 1.C. (d) and note 10 "Intangible assets" to the consolidated financial statements provided adequate information in this regard.
- Your company accounts for business combinations under accounting principles and methods
 described in note 1.C. (d) "Business combinations" to the consolidated financial statements. We
 examined the processes applied to identify acquired assets and liabilities as well as the
 methodology, the data and the assumptions used to compute their fair value. We ensured that
 note 1.C. (d) and note 2 "Scope of consolidation" to the consolidated financial statements provided
 adequate information in this regard.
- Note 1.C. (v) "Deferred income tax" to the consolidated financial statements indicates that the
 recoverability of deferred income tax assets recognized as at December 31, 2013, and more
 specifically those arisen from unused tax losses carried-forward, have been evaluated by your
 company on the basis of the forecasts of future taxable results. We reviewed the recoverability
 analyses on those tax assets performed by your company and ensured that note 1.C. (v) provided
 adequate information in this regard.
- As regards to litigations, we ensured that the existing procedures enabled the collection, the
 valuation and the recording in the financial statements of any litigation in satisfactory conditions.
 We specifically ensured, if applicable, that significant litigations identified by your company while
 performing these procedures were accurately described within the notes to the consolidated
 financial statements and particularly within note 32 "Litigation and contingent liabilities" to the
 consolidated financial statements.

We carried out an assessment of the reasonableness of these estimates. As described in note 1.C. (a) "Use of estimates" to the consolidated financial statements, these estimates may be revised if the circumstances and assumptions on which they are based change, if new information become available, or as a result of greater experience. Consequently, the actual result from these operations may differ from these estimates.

These assessments were made as part of our audit of the consolidated financial statements taken as a whole, and therefore contributed to the opinion we formed which is expressed in the first part of this report.

III. Specific verification

As required by law, we have also verified in accordance with professional standards applicable in France the information presented in the group's management report.

We have no matters to report as to its fair presentation and its consistency with the consolidated financial statements.

Neuilly-sur-Seine and Paris-La Défense, March 14, 2014

6. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Technip's principal businesses are as follows:

- lump sum or cost-to-cost engineering service contracts performed over a short period;
- engineering, manufacturing, installation and commissioning service contracts lasting approximately 12 months; and
- turnkey projects related to complex industrial facilities with engineering, procurement, construction and start-up in accordance with industry standards and a contractual schedule. The average duration of these contracts is three years, but can vary depending on the contract.

The consolidated financial statements of the Group are presented in millions of Euros, and all values are rounded to the nearest hundreds of thousands, except when otherwise indicated. The consolidated financial statements of the Group for the financial year ended December 31, 2013 were approved by the Board of Directors on February 18, 2014.

Note 1 - Accounting principles

A. Accounting framework

In accordance with the European Union's regulation No. 1606/2002 of July 19, 2002, the consolidated financial statements of Technip ("the Group") for financial year 2013 were prepared as of December 31, 2013 in accordance with International Financial Reporting Standards (IFRS) issued by the International Accounting Standard Board (IASB) and endorsed by the European Union as of February 18, 2014, the date of the meeting of the Board of Directors that approved the consolidated financial statements. These standards are available on the website of the European Union (http://ec.europa.eu/internal_market/accounting/ias/index_fr.htm).

Effective standards, that apply to the Group

The adoption of new standards, amendments and interpretations that had mandatory application for periods starting after January 1, 2013 had no significant impact on the financial situation and performance of the Group.

IAS 19 (amended) « Employee Benefits »

Published on June 2011 by the IASB, the amended standard is applicable retrospectively to annual periods beginning on or after January 1, 2013. It introduces the following changes:

- It modifies the valuation method regarding the long-term return on plan assets, which will be based on the discount rate used to measure the present value of the obligation.
- It eliminates the option of deferring actuarial gains and losses using the « corridor » approach. All actuarial gains and losses must now be recognized directly in other comprehensive income.
- It suppresses the deferral of past service cost on unvested benefits: all costs arising from past service are instead recognized immediately in the net income.

An early application of IAS 19 (amended) as of January 1, 2013 had on the whole an impact on the provisions for pensions and other long-term employee benefits increasing by €76.5 million through equity and corresponding essentially to the unrecognized actuarial gains and losses, as well deferred past service costs. A positive impact of €3.6 million on the net consolidated result and a decrease by €9.0 million of the other comprehensive income were also recognized.

IAS 19 (amended) application impact on the Group consolidated statement of income

Current Provisions	9,8	-
Total Current Liabilities	9,8	-
Total Liabilities	82,1	63,8
TOTAL EQUITY AND LIABILITIES	29,8	16,9

Pursuant to the transitional rules of retrospectively applicable IAS 19 amended, the consolidated financial statements of the comparative exercise on December 31, 2012, as well as all the notes presented in section 20.1, were restated in the present reference document.

- IAS 1 (amended) « Presentation of Items of Other Comprehensive Income »:

Released in June 2011 and adopted in June 2012, this amendment to IAS 1 requires a separated presentation of items that would be reclassified to profit and loss at a future point in time from those that will never be reclassified.

- IFRS 7 (amended) « Disclosures: Offsetting financial assets and financial liabilities»:

The amendment to standard IFRS 7, published by the IASB in December 2011, adopted on December 29, 2012, and applicable from January 1, 2013, specifies that additional information is required relating to how entities limit credit risk bound to compensation, and also on the contents of legal compensation agreements.

IFRS 13 « Fair Value Measurement »:

Effective for annual periods beginning on or after January 1, 2013, this standard related to fair value measurement and new disclosures to financial statements has no impact on Technip's financial statements.

Standards effective after December 31, 2013

Technip financial statements as of December 31, 2013 do not include the possible impact of standards published as of December 31, 2013 but which application is mandatory as per European Union as from financial years subsequent to the current year.

- IFRS 10 and IFRS 12 « Consolidated Financial Statements / Disclosure of Interests in other Entities »

These standards modify IAS 27 "Separate Financial Statements" and cancels SIC 12 "Consolidation – Special Purpose Entities". IFRS 10 presents a unique model of consolidation, identifying the concept of control as the determining factor in whether an entity should be consolidated.

The standard IFRS 12 specifies the information to be disclosed in the notes to the participations in subsidiaries, partnerships or non-consolidated entities.

The two above-mentioned standards are applicable as of January 1, 2014 in the European Union. The Group will apply these two standards from this date.

- IFRS 11 « Joint Arrangements »

This standard supersedes IAS 31 "Interests in Joint Ventures" and SIC 13 "Jointly Controlled Entities". The standard distinguishes two types of joint arrangements, joint ventures and joint operations, by assessing the rights and obligations of the entity in the partnership arrangement.

As of December 31, 2013, the Group is mainly involved in two types of joint arrangements: those set up for the purpose of fulfilling a defined construction contract and those set up to build and operate flexible pipeline installation vessels (PLSVs).

The Group will apply this standard from January 1, 2014. No material impact on the consolidated statement of income and the consolidated statement of changes in shareholder's equity is expected.

B. Consolidation principles

All the companies which are controlled exclusively by the Group are consolidated using the global integration method. All entities are concerned, included special purpose entities, for which the Group has the power to govern the financial and operating policies. The Group usually owns more than half of the voting rights of these entities.

Proportionate consolidation is used for jointly controlled entities. Activities in joint-ventures are consolidated using proportionate consolidation.

The equity method is used for investments over which the Group exercises a significant influence on operational and financial policies. Unless otherwise indicated, such influence is deemed to exist for investments in companies in which the Group's ownership is between 20% and 50%.

Companies in which the Group's ownership is less than 20% or that do not represent significant investments (such as dormant companies) are recorded under the "Other Financial Assets (Non-Current)" or "Available-For-Sale Financial Asset" line items and only impact net income through dividends received or in case of impairment loss. Where no active market exists and where no other valuation method can be used, these financial assets are maintained at historical cost, net of depreciation.

The list of the Group's consolidated companies and their respective method of consolidation is provided in Note 2 (c) Scope of consolidation as of December 31, 2013.

The main affiliates of the Group close their accounts as of December 31 and all consolidated companies apply the Group accounting standards.

All intercompany balances and transactions, as well as internal income and expenses, are fully eliminated.

Subsidiaries are consolidated as of the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date control ceases.

C. Accounting rules and policies

The consolidated financial statements were prepared in accordance with the IFRS.

The distinction between current assets and liabilities, and non-current assets and liabilities is based on the operating cycle of contracts. If related to contracts, assets and liabilities are classified as "current"; if not related to contracts, assets and liabilities are classified as "current" if their maturity is less than 12 months or "non-current" if their maturity exceeds 12 months.

All assets are valued under the historical cost convention, except for financial assets and derivative financial instruments, which are measured at fair value.

The preparation of financial statements in compliance with IFRS requires the use of certain critical accounting estimates. Areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are material, are disclosed in the paragraphs below.

(a) Use of estimates

Preparation of the consolidated financial statements requires the use of estimates and assumptions to be made that may affect the assessment and disclosure of assets and liabilities at the date of the financial statements, as well as the income and the reported expenses regarding this financial year. Estimates may be revised if the circumstances and the assumptions on which they were based change, if new information becomes available, or as a result of greater experience. Consequently, the actual result from these operations may differ from these estimates.

The main assessments and accounting assumptions made in the financial statements of the Group relate to construction contracts, the valuation of Group exposure to litigation with third parties, the valuation of goodwill and the assessment of recoverable goodwill, as well as the valuation of income tax assets resulting from tax losses carried forward (the latter is measured in compliance with accounting principles shown in Note 1-C (v) – Deferred income tax). Regarding construction contracts, the Group policy is described in Note 1-C (b) – Long-term contracts. In terms of legal proceedings and claims, the Group regularly establishes lists and performs analyses of

significant ongoing litigations, so as to record the adequate provisions when necessary. Possible uncertainties related to ongoing litigation are described in Note 32 – Litigation and contingent liabilities.

Goodwill, valued pursuant to principles described in Note 1-C (d) — Business Combinations, is tested for impairment at least annually and whenever a trigger event is identified. This impairment test determines whether or not the carrying amount exceeds the recoverable amount. Goodwill is allocated to cash-generating units (CGU) for the purpose of impairment testing. These CGUs correspond to the Subsea/Onshore/Offshore activities, which represent the smallest identifiable group of assets that generates independent cash flows. The recoverable amount is the higher of either the selling price or values in use of the CGUs. The latter corresponds to the discounted future cash flows forecasted for these CGUs.

Technip also performs sensitivity analyses on key assumptions used for impairment tests, in order to make sure that no reasonable change of an assumption on which the Group has based its CGUs' recoverable value jeopardizes the conclusions of these impairment tests.

(b) Long-term contracts

Long-term contracts are recorded in accordance with IAS 11 ("Construction Contracts") where they include construction and delivery of a complex physical asset, or in accordance with IAS 18 ("Revenue") in all other cases

Costs incurred on contracts include the following:

- the purchase of material, the subcontracting cost of engineering, the cost of markets, and all other costs directly linked to the contract;
- labor costs, related social charges and operating expenses that are directly connected. Selling costs of contracts, research and development costs and the potential charge of "overabsorption" are excluded from those evaluations; and
- other costs, if any, which could be reinvoiced to the client when specified in the contract clauses.

Costs on construction contracts do not include financial expenses.

Revenues on contracts at completion include:

- the initial selling price;
- every additional amendment, variation order and modification (together "changes") to the initial contract if it
 is probable that these changes could be reliably measured and that they are accepted by the client; and
- financial result on contracts when the corresponding cash management is completely separate from the central treasury and that contracts generate a significant net cash position.

Revenues on ongoing contracts are measured on the basis of costs incurred and of margin recognized at the percentage of completion. Margin is recognized only when the visibility of the riskiest stages of the contract is deemed sufficient and when estimates of costs and revenues are considered to be reliable.

The percentage of completion is calculated according to the nature and the specific risk of each contract in order to reflect the effective completion of the project. This percentage of completion can be based on technical milestones defined for the main deliverables under the contracts or based on the ratio between costs incurred to date and estimated total costs at completion.

As soon as the estimate of the final outcome of a contract indicates a loss, a provision is recorded for the entire

The gross margin of a long-term contract at completion is based on an analysis of total costs and income at completion, which are reviewed periodically and regularly throughout the life of the contract.

In accordance with IAS 11, construction contracts are presented in the statement of financial position as follows: for each construction contract, the accumulated costs incurred, as well as the gross margin recognized at the contract's percentage of completion (plus accruals for foreseeable losses if needed), after deduction of the payments received from the clients, are shown on the asset side under the "Construction Contracts – Amounts in Assets" line item if the balance of those combined components is a debit; if the balance is a credit, these are shown on the liability side under the "Construction Contracts – Amounts in Liabilities" line item.

A construction contract is considered completed when the last technical milestone is achieved, which occurs upon contractual transfer of ownership of the asset or temporary delivery, even if conditional. Upon completion of the contract:

 The balance of "Construction Contracts – Amounts in Assets", which at that time amounts to the total sale price of the contract, less accumulated payments received under this contract at the delivery date, is invoiced to the customer and recorded as current receivables on contracts (see Note 16 – Trade receivables). - If necessary, a liability may be accrued and recorded in "Other Current Payables" in the statement of financial position in order to cover pending expenses to get the acceptance certificate from the client.

As per IAS 18, other long-term contracts are recorded as follows in the statement of financial position: invoicing in advance of revenue to be recognized is recorded as advances received in "Other Current Liabilities" (see Note 25 – Other current and non-current liabilities); invoicing that trails revenues to be recognized is recorded in "Trade Receivables" (see Note 16 – Trade receivables).

Costs incurred before contract signing ("bid costs"), when they can be directly linked to a future construction contract where the signature is almost certain, are recorded in "Construction Contracts – Amounts in Assets" (see Note 15 – Construction contracts), and then included in costs of ongoing contracts when the contract is obtained. From a practical point of view, costs effectively capitalized correspond to the bid costs incurred during the quarter of the contract's award. Bid costs are directly recorded into consolidated income statement on the line "Selling Costs" when a contract is not secured.

(c) Foreign currency transactions and financial Instruments

FOREIGN CURRENCY TRANSACTIONS

Foreign currency transactions are translated into the functional currency at the exchange rate applicable on the transaction date.

At the closing date, monetary assets and liabilities stated in foreign currencies are translated into the functional currency at the exchange rate prevailing on that date. Resulting exchange gains or losses are directly recorded in the income statement, except exchange gains or losses on cash accounts eligible for future cash flow hedging and for hedging on net foreign currency investments.

TRANSLATION OF FINANCIAL STATEMENTS OF SUBSIDIARIES IN FOREIGN CURRENCY

The income statements of foreign subsidiaries are translated into Euro at the average exchange rate prevailing during the year. Statements of financial position are translated at the exchange rate at the closing date. Differences arising in the translation of financial statements of foreign subsidiaries are recorded in other comprehensive income as foreign currency translation reserve. The functional currency of the foreign subsidiaries is most commonly the local currency.

DERIVATIVES AND HEDGING PROCESSING

Every derivative financial instrument held by the Group is aimed at hedging future inflows or outflows against exchange rate fluctuations during the period of contract performance. Derivative instruments and in particular forward exchange transactions are aimed at hedging future inflows or outflows against exchange rate fluctuations in relation with awarded commercial contracts.

Foreign currency treasury accounts designated for a contract and used to finance its future expenses in foreign currencies may qualify as a foreign currency cash flow hedge.

An economic hedging may occasionally be obtained by offsetting cash inflows and outflows on a single contract ("natural hedging").

When implementing hedging transactions, each Group's subsidiary enters into forward exchange contracts with banks or with Technip Eurocash SNC, the company that performs centralized treasury management for the Group. However, only instruments that involve a third party outside of the Group are designated as hedging instruments.

A derivative instrument qualifies for hedge accounting (fair value hedge or cash flow hedge) when there is a formal designation and documentation of the hedging relationship, and of the effectiveness of the hedge throughout the life of the contract. A fair value hedge aims at reducing risks incurred by changes in the market value of some assets, liabilities or firm commitments. A cash flow hedge aims at reducing risks incurred by variations in the value of future cash flows that may impact net income.

In order for a currency derivative to be eligible for hedge accounting treatment, the following conditions have to be met:

- its hedging role must be clearly defined and documented at the date of inception; and
- its efficiency should be proved at the date of inception and/or as long as it remains efficient. If the efficiency test results in a score between 80 and 125%, changes in fair value of the covered element must be almost entirely offset by the changes in fair value of the derivative instrument.

All derivative instruments are recorded and disclosed in the statement of financial position at fair value:

- derivative instruments considered as hedging are classified as current assets and liabilities, as they follow the operating cycle; and
- derivative instruments not considered as hedging are also classified as current assets and liabilities. Changes in fair value are recognized as follows:
- regarding cash flow hedges, the portion of the gain or loss corresponding to the effectiveness of the hedging instrument is recorded directly in other comprehensive income, and the ineffective portion of the gain or loss on the hedging instrument is recorded in the income statement. The exchange gain or loss on derivative cash flow hedging instruments, which is deferred in equity, is reclassified in the net income of the period(s) in which the specified hedged transaction affects the income statement;
- the changes in fair value of derivative financial instruments that qualify as hedging are recorded as financial income or expenses. The ineffective portion of the gain or loss is immediately recorded in the income statement. The carrying amount of a hedged item is adjusted by the gain or loss on this hedged item which may be allocated to the hedged risk and is recorded in the income statement; and
- the changes in fair value of derivative financial instruments that do not qualify as hedging in accounting standards are directly recorded in the income statement.

The fair value of derivative financial instruments is estimated on the basis of valuations provided by bank counterparties or financial models commonly used in financial markets, using market data as of the statement of financial position date.

BID CONTRACTS IN FOREIGN CURRENCY

To hedge its exposure to exchange rate fluctuations during the bid-period of construction contracts, Technip occasionally enters into insurance contracts under which foreign currencies are exchanged at a specified rate and at a specified future date only if the new contract is awarded. The premium the Group pays to enter into such an insurance contract is charged to the income statement when paid. If the commercial bid is not successful, the insurance contract is automatically terminated without any additional cash settlements or penalties.

In some cases, Technip may enter into foreign currency options for some proposals during the bid-period. These options cannot be eligible for hedging.

(d) Business combinations

Assets, liabilities and contingent liabilities acquired within business combinations are recorded and valued at their fair value using the purchase method. Identifiable assets are depreciated over their estimated useful lives.

The goodwill, of which measurement results in difference between the acquisition price and the estimation of identifiable assets, liabilities and contingent liabilities at their fair value, is posted on the "Goodwill" line item when significant, under the "Intangible Assets" category. Goodwill is no longer amortized as per IFRS 3.

Adjustments recorded for a business combination on the provisional values of assets, liabilities and contingent liabilities are recognized as a retrospective change in goodwill when occurring within a 12-month period after the acquisition date. After this measurement period ends, any change in valuation of assets, liabilities and contingent liabilities should be accounted for in profit and loss statement, with no impact on goodwill.

The net value of intangible assets is subject to impairment tests performed on a regular basis, using the discounted cash flow method on the basis of the estimates of cash flows generated by the activities on which these goodwill are allocated, these estimates correspond to the most likely assumptions adopted by the Board of Directors. Impairment tests are based on estimates in terms of growth rates, operating margin rates, discount rates and corporate tax rates. The assumptions used are based on the three-year business plans for each activity that have been approved by the Board of Directors.

The goodwill and corresponding assets and liabilities are allocated to the appropriate activities (Onshore/Offshore/Subsea, corresponding to the Group CGUs).

Goodwill impairment analysis is performed during the fourth quarter of each financial year or whenever there is an indication that an asset may be impaired.

Actual figures may differ from projections. If calculations show that an asset shall be impaired, an impairment expense is recognized.

(e) Segment information

INFORMATION BY BUSINESS SEGMENT

As per IFRS 8, an operating segment is a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses;
- whose operating results are regularly reviewed by the entity's chief operating decision maker; and
- for which distinct financial information is available.

Effective as from January 1, 2012, the Group modified the reporting of its operating performances, by consolidating the former Onshore and Offshore segments.

Both activities have been pooled in 2011 under the authority of one of the two Executive Vice Presidents & Chief Operating Officers. They involve shared resources in terms of engineering, and have similar characteristics in terms of economic performances, as well as range of products, processes and markets.

The three business segments as reported to the main operating decision-maker, the Group Executive Committee, are therefore organized as following:

- the Subsea segment includes the design, manufacture, procurement and installation of subsea equipment;
- the Onshore/Offshore segment includes the entire engineering and construction business for petrochemical and refining plants as well as facilities for developing onshore oil and gas fields (including gas treatment units, liquefied natural gas (LNG) units and onshore pipelines). It also includes the renewable energies and the engineering and construction of non-petroleum facilities; as well as the design and construction of fixed or floating facilities and surface installations; and
- the Corporate segment includes holding company activities and central services rendered to Group subsidiaries, including IT services and reinsurance activity.

Segment information relating to the statement of financial position and the statement of income are prepared in accordance with IFRS.

The items related to segment result disclosed by Technip in its business segment information are the "Operating Income/(Loss) from Recurring Activities" and the "Operating Income/(Loss)". As a result, the segment result does not include financial income and expenses (except financial result on contracts), income tax expense (because of shared treasury and tax management), or the share of income/(loss) of equity affiliates. Segment assets do not include asset items related to the latter, such as income tax assets. Similarly, segment liabilities do not include liability items that are not connected to segment result, such as current and deferred income tax liabilities.

INFORMATION BY GEOGRAPHICAL AREA

From a geographical standpoint, operating activities and performances of Technip are reported on the basis of five areas, as follows:

- Europe, Russia and Central Asia;
- Africa:
- Middle East;
- Asia Pacific; and
- Americas

The items related to segment result disclosed by Technip in its geographical segment information are the "Operating Income/(Loss) from Recurring Activities" and the "Operating Income/(Loss)".

Consequently, the segment result does not include financial income and expenses (except for the financial result on contracts), income tax expense or the share of income/(loss) of equity affiliates. Segment assets do not include asset items related to the latter, such as deferred and current tax assets.

Geographical areas are defined according to the following criteria: specific risks associated with activities performed in a given area, similarity of economic and political framework, regulation of exchange control, and underlying monetary risks.

The breakdown by geographical area is based on the contract delivery within the specific country.

(f) Operating income from recurring activities and operating income

As per IAS 1, gains and losses from sale of activities are included in operating income. They are disclosed on a separate line ("Income/(Loss) from Sale of Activities"), between Operating Income/(Loss) from Recurring Activities and Operating Income/(Loss). The same applies to other non-current income and expenses.

(g) Financial result on contracts

The financial result of cash management related to construction contracts is recorded together with the revenues when the corresponding treasury management is completely separate from the Central treasury and that contracts generate a significant net cash position.

(h) Income/(loss) from discontinued operations

In compliance with IFRS 5, the result incurred by discontinued operations through sales or disposals is recorded under this line item. Discontinued operations consist of a whole line of business or geographical area.

(i) Earnings per share

As per IAS 33 "Earnings per Share", Earnings Per Share (EPS) are based on the average number of outstanding shares over the period, after deducting treasury shares.

Diluted earnings per share amounts are calculated by dividing the net profit of the period, restated if need be for the after-tax financial cost of dilutive financial instruments, by the sum of the weighted average number of outstanding shares, the weighted average number of share subscription options not yet exercised, the weighted average number of performance shares granted calculated using the share purchase method, and the weighted average number of shares of the convertible bonds and, if applicable, the effects of any other dilutive instrument.

In accordance with the share purchase method, only dilutive instruments are used in calculating EPS. Dilutive instruments are those for which the option exercise price plus the future IFRS 2 expense not yet recognized is lower than the average share price during the EPS calculation period.

(j) Property, plant and equipment (tangible assets)

In compliance with IAS 16 "Property, Plant and Equipment", an asset is recognized only if the cost can be measured reliably and if future economic benefits are expected from its use.

Property, plant and equipment are carried at their historical cost or at their fair value in case of business combinations.

As per IAS 16, Technip uses different depreciation periods for each of the significant components of a single property, plant and equipment asset where the useful life of the component differs from that of the main asset. Following are the useful lives most commonly applied by the Group:

- Buildings 10 to 50 years
- Vessels 10 to 30 years
- Machinery and Equipment 6 to 10 years
- Office Fixtures and Furniture 5 to 10 years
- Vehicles 3 to 7 years
- IT Equipment 3 to 5 years

If the residual value of an asset is material and can be measured, it is taken into account in calculating its depreciable amount.

On a regular basis, the Group reviews the useful lives of its assets. That review is based on the effective use of the assets.

As per IAS 17, assets at the Group's disposal through lease contracts are capitalized where almost all risks and benefits related to the asset property have been transferred to the Group. This standard was not applicable to the Technip Group's Consolidated Financial Statements.

As per IAS 16, dry-dock expenses are capitalized as a separate component of the principal asset. They are amortized over a period of three to five years.

Amortization costs are recorded in the income statement as a function of the fixed assets' use, split between the following line items: cost of sales, research and development costs, selling costs or general administrative costs.

In accordance with IAS 36, the carrying value of property, plant and equipment is reviewed for impairment whenever internal or external events indicate that there may be impairment, in which case, an impairment loss is recognized.

In application of IAS 23, borrowing costs related to assets under construction are capitalized as part of the value of the asset.

(k) Intangible assets

RESEARCH AND DEVELOPMENT COSTS GENERATED INTERNALLY

Research costs are expensed when incurred. In compliance with IAS 38, development costs are capitalized if all of the following criteria are met:

- the projects are clearly identified;
- the Group is able to reliably measure expenditures incurred by each project during its development;
- the Group is able to demonstrate the technical feasibility of the project;
- the Group has the financial and technical resources available to achieve the project;
- the Group can demonstrate its intention to complete, to use or to commercialize products resulting from the project; and
- the Group is able to demonstrate the existence of a market for the output of the intangible asset, or, if it is used internally, the usefulness of the intangible asset.

Since not all of these conditions were met for the disclosed period on ongoing development projects, no development expenses were capitalized, except some expenses related to IT projects developed internally.

OTHER INTANGIBLE ASSETS

Patents are amortized over their useful life, generally on a straight line basis over ten years. Costs related to software rights are capitalized, as are those related to creating proprietary IT tools, such as the E-procurement platform, or Group management applications which are amortized over their useful life, generally five years.

In accordance with IAS 36, the carrying value of intangible assets is reviewed for impairment whenever internal or external events indicate that there may be impairment, in which case, an impairment loss is recognized.

(I) Other financial assets

Other financial assets are recorded at fair value or at historical cost, as of the transaction date, if they cannot be measured reliably. In the latter case, impairment is recorded if the recoverable value is lower than the historical cost. The estimated recoverable value is computed by type of financial asset based on the future profitability or the market value of the company considered, as well as its net equity if needed.

NON-CONSOLIDATED INVESTMENTS

On initial recognition, non-consolidated investments are recognized at their acquisition cost including directly attributable transaction costs.

At the closing date, these investments are measured at their fair value. As investments under this category relate to unlisted securities, fair value is determined on the basis of discounted cash flows or failing that, based on the Group's share in the Company's equity.

RECEIVABLES RELATED TO INVESTMENTS

This item comprises loans and advances through current accounts granted to non-consolidated or equity affiliates.

SECURITY DEPOSITS AND OTHERS

This item essentially includes guarantee security deposits and escrow accounts related to litigation or arbitration.

(m) Available-for-sale financial assets

Investments in listed companies which are not consolidated are recorded in this line item. They are initially and subsequently measured at fair value.

Variations in fair value are booked directly in other comprehensive income and unrealized gains or losses are recycled in the income statement upon disposal of the investment. An impairment loss is recorded through the income statement when the loss is sustained (over more than two quarters) or significant (more than 30%).

(n) Inventories

Inventories are recognized at the lower of cost and market value with cost being principally determined on a weighted-average cost basis.

Provisions for depreciation are recorded when the net realizable value of inventories is lower than their net book value

(o) Advances paid to suppliers

Advance payments made to suppliers under long-term contracts are shown under the "Advances to Suppliers" line item, on the asset side of the statement of financial position.

(p) Trade receivables

Trade receivables are measured at fair value. A provision for doubtful accounts is recorded when the Group assesses the recoverable value is lower than the fair value.

Trade receivables only relate to contracts accounted for as per IAS 18 (see Note 1-C (b) – Long-term contracts) and delivered contracts.

(q) Cash and cash equivalents

Cash and cash equivalents consist of cash in bank and in hand, as well as marketable securities fulfilling the following criteria: a maturity of usually less than three months, highly liquid, a fixed exchange value and an insignificant risk of loss of value. Marketable securities are measured at their market value at period-end. Any change in fair value is recorded in the income statement.

(r) Treasury shares

Treasury shares are recorded as a deduction to equity at their acquisition cost. Any gain or loss related to the sale of treasury shares is recognized directly in equity without affecting the income statement.

(s) Grants of share subscription options, share purchase options and performance shares

In accordance with IFRS 2, share subscription options, share purchase options and performance share grants constitute a benefit to the beneficiaries and represent additional compensation paid by the Group. This supplementary benefit is recognized as follows: the fair value of the granted options and shares which correspond to the services rendered by the employees against the options and shares received is determined at the grant date and recorded as an expense against the equity line item over the vesting period.

The fair value of the share subscription options, the share purchase options or the performance share grants is determined using the Cox Ross Rubinstein binomial model. The model takes into account the features of the option plan (exercise price, vesting period, exercise period) and the market data at the grant date (risk-free rate, volatility, dividends, share price).

All share subscription option, share purchase option and performance share plans are exclusively settled in shares.

IFRS 2 applies to share-based payment plans granted after November 7, 2002 and not vested before January 1, 2005.

(t) Capital increase reserved for employees

In compliance with IFRS 2, instruments awarded under employee share purchase plans are measured at fair value, estimated at the grant date based on the discount awarded to employees and the non-transferability period applicable to the shares subscribed.

The cost of employee share purchase plans is recognized in full in the statement of income and offset against consolidated equity, without any impact on total equity.

(u) Provisions (current and non-current)

Accrued liabilities are recognized if and only if the following criteria are simultaneously met:

- the Group has an ongoing obligation (legal or constructive) as a result of a past event;
- the settlement of the obligation will likely require an outflow of resources embodying economic benefits; and
- the amount of the obligation can be reliably estimated; provisions are measured according to the risk

assessment or the exposed charge, based upon best-known elements.

CURRENT PROVISIONS

Contingencies related to contracts: these provisions relate to litigation on contracts.

Restructuring: once a restructuring plan has been decided and the interested parties have been informed, the plan is scheduled and valued. Restructuring provisions are fully recognized in compliance with IAS 37.

NON-CURRENT PROVISIONS

Pensions and other long term benefits: the Group is committed to various employee benefit plans. Those obligations are settled either at the date of employee departures or at subsequent date.

Depending on affiliates, the main defined benefit plans can be:

- end-of-career benefits, to be paid at the retirement date.
- deferred compensation, to be paid when an employee leaves the company,
- retirement benefits to be paid in the form of a pension.

In accordance with IAS 19 revised in 2011, the obligations of providing benefits under defined benefit plans are determined by independent actuaries using the projected unit credit actuarial valuation method. The actuarial assumptions used to determine the obligations may vary depending on the country. The actuarial estimation is based on usual parameters such as future wage and salary increases, life expectancy, staff turnover rate and inflation rate.

The defined benefit liability equals the present value of the defined benefit obligation after deducting the plan assets.

Present value of the defined benefit obligation is determined using present value of future cash disbursements based on interest rates of convertible bonds, in the currency used for benefit payment, and whose life is equal to the average expected life of the defined benefit plan.

According to amended IAS 19, the gains and losses resulting from experience related adjustments and changes in actuarial assumptions are now recorded in the other comprehensive income. (see Note 22 – Pensions and other long-term employee benefit plans)

(v) Deferred income tax

Deferred income taxes are recognized in accordance with IAS 12, using the liability method (use of the last forecast tax rate passed or almost passed into law at the closing date), on all temporary differences at the closing date, between the tax bases of assets and liabilities and their carrying amounts for each Group's company.

Deferred income taxes are reviewed at each closing date to take into account the effect of any changes in tax law and in the prospects of recovery.

Deferred income tax assets are recognized for all deductible temporary differences, unused tax credits carry-forwards and unused tax losses carry-forwards, to the extent that it is probable that taxable profit will be available.

To properly estimate the ability of a subsidiary to recover the deferred tax assets, the following items are taken into account:

- existence of temporary differences which will cause taxation in the future;
- forecasts of taxable results;
- analysis of the past taxable results; and
- existence of significant and non-recurring income and expenses, included in the past tax results, which should not repeat in the future.

Deferred income tax liabilities are recognized for all taxable temporary differences, except restrictively enumerated circumstances, in accordance with the provisions of IAS 12.

When a tax consolidation mechanism is in place for companies in a given country, the deferred tax calculation takes into account the individual tax situation of each subsidiary located in that country as well as the overall situation of all subsidiaries included in the scope of consolidation.

Assets and liabilities are not discounted except those whose tax base is discounted by nature (for instance, pensions).

(w) Financial debts (current and non-current)

Current and non-current financial debts include bond loans and other borrowings. Issuance fees and redemption premium on convertible bonds are included in the cost of debt on the liability side of the statement of financial position, as an adjustment to the nominal amount of the debt. The difference between the initial debt and redemption at maturity is amortized at the effective interest rate.

The OCEANE convertible bonds are recognized in two distinct components:

- a debt component is recognized at amortized cost, which was determined using the market interest rate for a non-convertible bond with similar features. The carrying amount is recognized net of its proportionate share of the debt issuance costs; and
- a conversion option component is recognized in equity for an amount equal to the difference between the
 issuing price of the OCEANE convertible bond and the value of the debt component. The carrying amount is
 recognized net of its proportionate share of the debt issuance costs and corresponding deferred taxes. This
 value is not remeasured but will be adjusted for all conversion of bonds.

(x) Assets and liabilities held for sale

The Group considers every non-current asset as an asset held for sale if it is very likely that its book value will be recovered principally by a sale transaction rather than by its continued use. Assets classified as held for sale are measured at the lower of either the carrying amount or the fair value less selling costs.

Note 2 - Scope of consolidation

(a) Main acquisitions

Year ended December 31, 2013

On March 8, 2013, Technip announced the acquisition of Ingenium AS, a highly-experienced offshore engineering and services contractor located in Oslo, Norway. Ingenium AS designs and develops mechanical and electrohydraulic tools and equipment, for the offshore oil and gas industry, and provides engineering services for submarine operations, such as the installation of pipes and cables. The company comprised over 20 highly-skilled engineers in the Subsea business.

The goodwill recognized in the consolidated financial statements as of June 30, 2013 for the acquisition of the company Ingenium AS amounts to €8.3 million.

The acquisition costs of this company, net of cash acquired, amounted to €8.2 million.

This company was merged with Technip Norge AS on August 29, 2013.

Year ended December 31, 2012

On August 31, 2012, Technip acquired Stone & Webster Process Technologies and associated oil and gas engineering capabilities from The Shaw Group.

This transaction will enable Technip to enhance substantially its position as a technology provider to the refining and petrochemicals industries, to diversify further its Onshore/Offshore segment, to strengthen its relationships with clients worldwide, to expand in promising growth areas such as the US, where downstream markets will benefit from the supply of unconventional gas, and to add skilled resources, notably in research in the US, India and the UK.

The total purchase price was USD295.3 million in cash (that is €234.2 million). During the third quarter 2013, Technip achieved the purchase price allocation. This evaluation was mainly led on of the fair value of technologies and other intangible assets. The goodwill recognized in the consolidated financial statements as of December 31, 2013 for the acquisition of the company amounts to USD226.0 million (that is €179.2 million).

Restatement of 2012 consolidated accounts

Following the completion of the purchase price allocation of Stone & Webster Process Technologies, the consolidated statement of financial position as of December 31, 2012, including the Notes appended to the Consolidated Financial Statements presented in Section 20.1 of the Reference Document, were restated as per revised IFRS 3 "Business Combinations".

According to the amended IAS 19, the consolidated statements of financial position as of December 31, 2012, including the Notes appended to the consolidation statements presented in Section 20.1 of the Reference Document, were restated.

- (3) Includes tangible assets in France: €137.9 million. The fleet of vessels (including vessels under construction) that operate in different geographical areas and therefore cannot be allocated to a specific area is reported under « Non allocable ».
- (4) Includes financial assets in France: €172.2 million and in United States of America: €14.8 million.

Note 4 - Operating income/(loss)

The breakdown of the different items of Operating Income/(Loss) by nature is as follows:

(a) Revenues

Revenues breakdown as follows:

In millions of Euro	2013	2012 restated
Rendering of Services	9,255.9	8,070.8
Sales of Goods	80.2	121.5
Financial Result on Contracts	-	11.6
TOTAL REVENUES	9,336.1	8,203.9

In 2013, one single customer of the Group represented more than 10% of Group consolidated revenues (12 % in 2013 and 6 % in 2012).

(b) Cost of sales by nature

Cost of sales comprises the following items:

In millions of Euro	2013	2012 restated
Employee Expenses	(1,826.5)	(1,821.1)
Operating Leases	(196.1)	(179.8)
Amortization and Depreciation of Property, Plant and Equipment	(216.1)	(179.1)
Amortization of Intangible Assets	(8.4)	(8.2)
Purchases, External Charges and Other Expenses	(5,471.6)	(4,464.1)
TOTAL COST OF SALES	(7,718.7)	(6,652.3)

(c) Research and development costs

Research and development costs amounted to \in (75.5) million in 2013 compared to \in (68.7) million in 2012. No development costs were capitalized during the periods as no project met the requirements for capitalization (see Note 1-C (k) – Intangible assets).

(d) Administrative costs by nature

Administrative costs by nature break down as follows:

In millions of Euro	2013	2012 restated
Employee Expenses (1)	(271.2)	(261.0)
Operating Leases	(44.1)	(35.2)
Amortization and Depreciation of Property, Plant and Equipment	(0.9)	(4.5)
Amortization of Intangible Assets	(8.1)	(2.9)
Purchases, External Charges and Other Expenses	(172.7)	(139.1)
TOTAL ADMINISTRATIVE COSTS	(497.0)	(442.7)

⁽¹⁾ Includes charges for share subscription and share purchase options and performance share grants: €(46.0) million in 2013 compared to €(43.1) million in 2012, as well as €(10.6) million expenses related to 2012 capital increase reserved for employees.

(e) Other operating income

Other operating income break down as follows:

In millions of Euro	2013	2012 restated
Net Proceeds from Disposal of Property, Plant and Equipment (1)	12.4	5.0
Reinsurance Income	13.2	12.0
Other	8.7	13.7
TOTAL OTHER OPERATING INCOME	34.3	30.7

⁽¹⁾ Includes €67.2 million as of December, 31 2013 of proceeds of tangible assets.

(f) Other operating expenses

Other operating expenses break down as follows:

In millions of Euro	2013	2012 restated
Reinsurance Costs	(10.6)	(5.8)
Other	(4.3)	(5.6)
Total Other Operating Expenses	(14.9)	(11.4)

(g) Result from sale of activities

In 2013 as in 2012, the Group did not sell any activities.

(h) Other non-current income and expenses

For the financial year ended December 31, 2013, no non-current expenses has been recognized.

In 2012, non-current expenses mainly related to the acquisitions of Stone & Webster process technologies were recognized for an aggregate amount of \in (9.5) million.

(i) Employee expenses

Employee expenses break down as follows:

In millions of Euro	2013	2012 restated
Wages and Salaries	(1,654.8)	(1,661.0)
Social Security Costs	(308.5)	(293.9)
Pension Costs - Defined Contribution Plans	(52.2)	(39.5)
Pension Costs – Defined Benefit Plans	(19.4)	(20.8)
Share Subscription or Purchase Options and Performance Shares	(46.0)	(43.1)
Cash Incentive Plans	(30.3)	(9.7)
Capital Increase Reserved for Employees	· · · · · · · · · · · · · · · · · · ·	(10.6)
Other	(113.3)	(136.8)
TOTAL EMPLOYEE EXPENSES	(2,224.5)	(2,215.4)

Employee expenses relate only to Group employees. Subcontractors' costs are excluded.

Note 5 - Financial income and expenses

Net financial result as of December, 31, 2013 amounted to €(84.3) million compared to €(67.3) million as of December, 31, 2012. It breaks down as follows:

(a) Financial income

In millions of Euro	2013	2012 restated
Interest Income from Treasury Management (1)	51.7	54.2
Dividends from Non-Consolidated Investments	3.5	3.4
Financial Income related to Long-Term Employee Benefit Plans	5.6	7.2
Net Reversal of Financial Assets Depreciation	-	0.3
Foreign Currency Translation Gains	286.5	219.2
Changes in Derivative Fair Value, Net	2.8	15.9
Net Proceeds from Disposal of Financial Assets (2)	7.0	-
Total Financial Income	357.1	300.2

⁽¹⁾ Mainly results from interest income from short-term security deposits.

(b) Financial expenses

In millions of Euro	2013	2012 restated
Interest Expenses on Private Placements	(25.2)	(17.2)
Interest Expenses on Convertible Bonds	(32.2)	(31.4)
Net Proceeds from Disposal of Financial Assets	-	(0.1)
Fees Related to Credit Facilities	(3.2)	(3.4)
Financial Expenses related to Long-Term Employee Benefit Plans	(12.7)	(14.9)
Interest Expenses on Bank Borrowings and Overdrafts	(31.2)	(42.2)
Depreciation on Financial Assets, Net	(0.1)	-
Foreign Currency Translation Losses	(312.9)	(242.0)
Inefficient Part of Derivative Instruments, Net (1)	(9.3)	(4.7)
Other	(14.6)	(11.6)
Total Financial Expenses	(441.4)	(367.5)
NET FINANCIAL RESULT	(84.3)	(67.3)

⁽¹⁾ Mainly includes swap points on derivative financial instruments.

⁽²⁾ Of which €12.1 million as of December, 31, 2013 of proceeds of financial assets.

Note 6 - Income tax

(a) Income tax expense

The income tax expense booked in the statement of income for an amount of €(191.3) million in 2013 is explained as follows:

In millions of Euro	2013	2012 restated
Current Income Tax Credit/(Expense)	(177.5)	(151.9)
Deferred Income Tax Credit/(Expense)	(13.8)	(54.3)
Income Tax Credit/(Expense) as recognized in Statement of Income	(191.3)	(206.2)
Deferred Income Tax related to Items Booked Directly to Opening Equity	(33.2)	(15.1)
Deferred Income Tax related to Items Booked to Equity during the Year	(17.0)	(18.1)
Income Tax Credit/(Expense) as reported in Equity	(50.2)	(33.2)

(b) Income tax reconciliation

The reconciliation between the tax calculated using the standard tax rate applicable in Technip and the amount of tax effectively recognized in the accounts is detailed as follows:

In millions of Euro	2013	2012 restated
Net Income from Continuing Operations	570.0	546.7
Income Tax Credit/(Expense) on Continuing Operations	(191.3)	(206.2)
Income Before Tax	761.3	752.9
At Parent Company Statutory Income Tax Rate of 38%	(289.3)	(271.8)
Differences between Parent Company and Foreign Income Tax Rates	104.6	127.5
Share of Income/(Loss) of Equity Affiliates	0.4	0.3
Additional Local Income Tax and Foreign Tax	(22.6)	(15.0)
Gains/(Losses) Taxable at a Particular Rate	21.1	13.0
Other Non-Deductible Expenses	(20.3)	(13.2)
Deferred Tax Assets not Recognized on Tax Loss of the Year	(13.5)	(29.9)
Adjustments on Prior Year Current Taxes	35.0	9.4
Deferred Tax relating to Changes in Tax Rates	4.4	2.5
Adjustments on Prior Year Deferred Taxes	(4.2)	(24.2)
Consolidation Adjustments with no Tax Impact	(7.1)	1.9
Other	0.2	(6.7)
Effective Income Tax Credit/(Expense)	(191.3)	(206.2)
Tax Rate	25.1%	27.4%
INCOME TAX CREDIT/(EXPENSE) AS REPORTED IN THE CONSOLIDATED STATEMENT OF INCOME	(191.3)	(206.2)

The tax rate used for the purpose of the tax proof is 38% in 2013 and 36.10% in 2012.

In 2013, this rate corresponds to the global tax rate applicable to French entities, which splits as follows: 33,33 % standard rate of income tax + 3.3% social contribution + 10.7% extraordinary contribution.

In 2012, this rate corresponds to the global tax rate applicable to French entities, which splits as follows: 33,33 % standard rate of income tax + 3.3% social contribution + 5% extraordinary contribution.

(c) Deferred income tax

The principles are described in Note 1-C (v) – Deferred income tax is explained as follows:

	As of Decem	ber 31,
In millions of Euro	2013	2012 restated
Tax Losses Carried Forward	51.6	56.1
Margin Recognition on Construction Contracts	42.4	30.5
Provisions for Pensions and other Long-Term Employee Benefits	72.4	86.1
Contingencies related to Contracts	116.0	118.9
Other Contingencies	(32.4)	3.5
Temporarily Non-Deductible Expenses	3.2	2.5
Fair Value Losses	31.7	15.5
Other Temporary Differences	(18.3)	4.0
Total Deferred Income Tax Assets	266.6	317.1
Differences between Taxable and Accounting Depreciation	99.3	135.1
Margin Recognition on Construction Contracts	48.3	29.5
Fair Value Gains	23.5	29.1
Total Deferred Income Tax Liabilities	171.1	193.7
NET DEFERRED INCOME TAX ASSETS/(LIABILITIES)	95.5	123.4

In order to disclose the details of deferred tax assets and liabilities by nature of temporary differences, it was necessary to split up deferred tax assets and liabilities for each subsidiary (each subsidiary reports in its statement of financial position a net amount of deferred tax liabilities and assets).

The net deferred tax asset of €95.5 million as of December 31, 2013 is broken down into a deferred tax asset of €274.8 million and a deferred tax liability of €179.3 million. The net deferred tax asset of €123.4 million as of December 31, 2012 is broken down into a deferred tax asset of €333.0 million and a deferred tax liability of €209.6 million, as recorded in the statement of financial position.

(d) Tax loss carry-forwards and tax credits

Tax loss carry-forwards not yet recognized as source of deferred tax assets amount to €383.0 million as of December 31, 2013, compared to €377.0 million as of December 31, 2012. The majority of these come from the ex-Global Industries US entities for €168.0 million, a Finnish entity for €71.0 million and Brazilian entities for €89.0 million. The unrecorded deferred income tax assets corresponding to these tax loss carry-forwards as of December 31, 2013 amounted to €119.0 million. All of these tax loss carry-forwards are reportable over an unlimited period of time, except in Finland and in the United States where there is respectively a 10 and 20-year time limit

Note 7 – Income/(loss) from discontinued operations

According to IAS 1, income/(loss) from operations discontinued or sold during the period are reported in this note. In 2013 and 2012, no activity was closed, sold or in the process of being sold.

Note 8 – Earnings per share

Diluted earnings per share are computed in accordance with Note 1-C (i) – Earnings per share. Reconciliation between earnings per share before dilution and diluted earnings per share is as follows:

In millions of Euro	2013	2012 restated
Net Income Attributable to Shareholders of the Parent Company	563.1	543.3
Non-Cash Financial Expense on Convertible Bonds, Net of Tax	20.6	20.0
Adjusted Net Income for Diluted Earnings per Share	583.7	563.3
In thousands		

Weighted Average Number of Outstanding Shares during the Financial Year (excluding Treasury Shares) used for Basic Earnings per Share	111,292	109,882
Effect of Dilution:		
Share Subscription Options	663	1,027
Performance Shares	1,025	1,714
Convertible Bond	11,797	11,797
WEIGHTED AVERAGE NUMBER OF OUTSTANDING SHARES DURING THE FINANCIAL YEAR (EXCLUDING TREASURY SHARES) ADJUSTED FOR DILUTED EARNINGS PER SHARE	124,777	124,420
In Euro		
Basic Earnings per Share	5.06	4.94
DILUTED EARNINGS PER SHARE	4.68	4.53

During the financial years 2013 and 2012, the Group granted performance shares and share subscription options subject to performance conditions, and in addition issued two convertible bonds on November 17, 2010 and December 15, 2011, which resulted in a dilution of earnings per share (see Note 21 (b) Convertible bonds).

In 2013, the average annual share price amounted to €82.05 and the closing price to €69.86. As a result, the 2012 share subscription option plan (Part 2) with an exercise price of €87.13 and the 2013 share subscription option plan with an exercise price of €85.73 were anti-dilutive.

In 2012, the average annual share price amounted to €82.99 and the closing price to €86.84. As a result, only the 2012 share subscription option plan (Part 2) with an exercise price of €87.13 was anti-dilutive.

Note 9 - Property, plant and equipment (tangible assets)

The following tables illustrate the costs, the accumulated amortization and depreciation by type of tangible assets:

In millions of Euro	Land	Buildings	Vessels	Machinery and Equipment	Office Fixtures and Furniture	Assets under Construc- tion	Other	Total
Costs	31.1	292.5	1,634.7	1,063.8	233.1	573.6	218.6	4,047.4

Disposals - Write-off	-	(0.7)	(39.5)	(19.9)	(1.4)	-	(0.9)	(62.4)
Depreciation Expense for the Year	-	(13.0)	(98.9)	(61.9)	(24.9)	-	(16.5)	(215.2)
Impairment Losses	=	-	-	(0.7)	-	(1.1)	-	(1.8)
Net Foreign Exchange Differences	(1.5)	(3.1)	(56.2)	(22.3)	(3.2)	(32.4)	(15.3)	(134.0)
Other (1)	-	2.3	657.3	(130.6)	2.2	(504.3)	(17.4)	9.5
NET BOOK VALUE AS OF DECEMBER 31, 2013	28.8	129.1	1,495.5	422.0	76.4	349.7	117.9	2,619.4

⁽¹⁾ The line "Other" is mainly related to the reclassification of assets under construction into the corresponding line items upon their delivery.

The Group has maintained its policy of high levels of investment, in particular in order to expand its vessel fleet. As of December 31, 2013, the principal vessels recorded as "Assets under Construction" for a total amount of €349.7 million were as follows:

- six new flexible pipeline installation vessels in joint venture, dedicated to Brazilian markets;

The principal flexible and umbilical plants were as follows:

- the new flexible plant located in Açu, in Brazil;
- the update of the umbilical plant located to Lobito, in Angola;
- the extension of the umbilical plant located in Newcastle, in the United Kingdom

The increase in the "Vessels" item mainly relates to the delivery of the commissioning of the Deep Energy and the Deep Orient.

Pledged fixed assets amounted to €242.2 million as of December 31, 2013 and principally consisted of mortgages related to the Skandi Vitória, Skandi Arctic, Skandi Niterói vessels and Açu plant. No assets are subject to a capital lease.

Note 10 – Intangible assets

Costs, accumulated amortization and depreciation by type of intangible assets are as follows:

In millions of Euro	Goodwill	Licenses/ Patents/ Trademarks	Software	Other	Total
Costs	3,273.0	175.6	107.1	3.1	3,558.8

Additions – Business Combinations	-	-	-	-	-
Disposals – Write-off	-	-	(0.7)	-	(0.7)
Amortization Charge for the Year	-	(3.9)	(12.4)	(0.2)	(16.5)
Impairment Losses	-	-	-	-	-
Net Foreign Exchange Differences (2)	(55.5)	(4.3)	(0.4)	-	(60.3)
Other	-	-	0.7	(0.2)	0.6
NET BOOK VALUE AS OF DECEMBER 31, 2013	3,226.1	46.6	59.3	0.7	3,332.7

⁽¹⁾ Includes the restatements accounted for pursuant to the purchase price allocation of Stone & Webster process technologies in accordance with revised IFRS 3.

(b) Goodwill

The goodwill recognized following an acquisition is measured at fair value as the excess of the purchase price over the share of identifiable assets and liabilities of the acquired entity. This goodwill is subject to an impairment test performed annually or upon occurrence of a meaningful event (see Note 1-C (d) – Business combinations).

In 2013, the goodwill allocated to the Onshore Cash-Generating Unit of the acquisition of Stone & Webster Process Technologies amounted to USD226 million (i.e. €179.2 million), compared to the temporary goodwill for a total of USD250.4 million (i.e. €198.6 million) in 2012.

The following table shows the detail of goodwill by business segment:

	As of Decemb	As of December 31,				
In millions of Euro	2013	2012 restated				
Subsea	2,591.8	2,631.5				
Onshore/Offshore	634.3	641.5				
TOTAL GOODWILL	3,226.1	3,273.0				

Impairment tests were performed on the goodwill, using the method described in Note 1-C (a) – Use of estimates.

By using the discounted cash flow method, the impairment tests performed by the Group were based on the most likely assumptions with respect to activity and result. Assumptions made in 2013 relied on the business plans covering years 2014 to 2016 for each Cash-Generating Units (Onshore/Offshore/Subsea).

These business plans are determined in accordance with the Group accounting methods to establish its consolidated historical statements. The backlog and backlog scheduling forecasts, the investments in production capabilities, fleet and other logistic capabilities, as well as the internal and external market studies are critical to the elaboration of Technip's business plans.

Beyond 2016, the growth rate taken into account was 3.0% (according to the rates of the World Bank distinguishing countries OECD and not OECD and that of the International Monetary Fund). Cash flows were discounted at a rate of 10.0% after tax. The tax rate used in the model was 30.0%. The assumptions of growth rate, discount rate and tax rate used in 2013 are unchanged compared to 2012.

⁽²⁾ Goodwill is mainly denominated in Euro.

As of December 31, 2013, impairment tests performed on the net book value of goodwill did not result in the accounting of an impairment loss. A 1% decrease in the 2016 operating margin ratio relative to the business plan estimates, the use of a 2.0% growth rate after 2016, or a plus or minus 1.0% variation in the discount rate would have no impact on the value of goodwill.

No impairment loss was recorded in 2012.

Note 11 - Investments in equity affiliates

Subsequent to the acquisition of Stone & Webster process technologies in August 2012, the Group has consolidated under the equity method the 50% owned company Badger Licensing LLC – JV.

	As of Decen	nber 31,
In millions of Euro	2013	2012 restated
Investment under equity method	Badger Licensing LLC - JV	Badger Licensing LLC - JV

Note 12 - Other financial assets

As per Note 1-C (I) — Other financial assets, other financial assets are recorded at their fair value or at their historical cost if they cannot be measured reliably. In the latter case, depreciation is recorded if its recoverable amount is lower than its historical cost.

As of December 31, 2013, impairment tests performed on the net book value of other financial assets (non-current) did not result in any recognition of impairment loss.

The breakdown of this item by nature is presented below:

	As of Decem	ıber 31, 2013	As of Decen	nber 31, 2012 restated

Note 13 - Available-for-sale financial assets

As of December 31, 2012 the Group owned 789,067 shares, i.e. 5.5%, of Gulf Island Fabrication, Inc. (GIFI), a company listed in New York (NASDAQ). On the first half-year 2013, the Group sold all the GIFI shares with a €7.0 million gain.

In 2010, the Group acquired an 8% stake in Malaysia Marine and Heavy Engineering Holdings Berhad (MHB) for €114.5 million (i.e. 128,000,000 shares). Technip's stake in MHB increased by 0.35% in 2011 for €7.1 million (i.e. 5,555,000 supplementary shares), then additionally 0.15% in 2012 for €3.2 million (i.e. 2,445,000 supplementary shares), totaling 136 million shares. This company is listed in Malaysia (Bursa Malaysia Securities Berhad).

As of December 31, 2013, the MHB available-for-sale financial assets amounted to €105.3 million.

In the financial year ended 2013, a loss was booked in fair value reserves for €(52.1) million, compared to €(42.4) million in 2012.

	As of December 31, 2013		As of Decer	nber 31, 2012 restated

TOTAL AVAILABLE-FOR-SALE FINANCIAL ASSETS	105.3	105.3	162.7	162.7

Note 14 - Inventories

The breakdown of inventories is as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Raw Materials	218.1	244.9
Work in Progress	37.5	23.7
Finished Goods and Merchandise	42.2	52.2
Valuation Allowance	(21.5)	(24.0)
TOTAL NET INVENTORIES	276.3	296.8

As of December 31, 2013, inventories meant to be used in the next 12 months amounted to €276.3 million.

Note 15 – Construction contracts

Long-term contracts are recorded in accordance with IAS 11 "Construction contracts" when they include construction and delivery of a complex physical asset and in accordance with IAS 18 "Revenues" in other cases (see Note 1-C (b) – Long-term contracts).

The breakdown of construction contracts is as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Construction Contracts – Amounts in Assets	405.0	454.3
Construction Contracts – Amounts in Liabilities	(1,721.4)	(873.0)
TOTAL NET CONSTRUCTION CONTRACTS	(1,316.4)	(418.7)
Costs and Margins Recognized at the Percentage of Completion	9,643.9	8,065.5
Payments Received from Clients	(10,788.3)	(8,308.5)
Accruals for Losses at Completion	(172.0)	(175.7)
TOTAL NET CONSTRUCTION CONTRACTS	(1,316.4)	(418.7)

Note 16 - Trade receivables

Given the nature of Group operations, the Group's clients are mainly major oil and gas, petrochemical or oil-related companies.

This line item represents receivables from completed contracts, invoices to be issued on long-term contracts other than construction contracts and miscellaneous invoices (e.g. trading, procurement services).

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Trade Receivables	1,288.0	868.7
Contracts – To be invoiced	457.2	404.1
Doubtful Accounts	36.1	35.3
Provisions for Doubtful Accounts	(36.1)	(35.3)
TOTAL NET TRADE RECEIVABLES	1,745.2	1,272.8

Trade receivables are non-interest bearing. Their maturities are linked to the operating cycle of contracts. As of December 31, 2013, the portion of trade receivables that had a maturity of less than 12 months amounted to €1,721.7 million.

Each customer's financial situation is periodically reviewed. Provisions for doubtful receivables, which have todate been considered sufficient at the Group level, are recorded for all potential uncollectible receivable, and are as follows:

In millions of Euro	2013	2012 restated
Provisions for Doubtful Accounts as of January 1	(35.3)	(33.8)
Increase	(8.2)	(7.6)
Used Provision Reversals	4.7	5.4
Unused Provision Reversals	2.7	0.7
PROVISIONS FOR DOUBTFUL ACCOUNTS AS OF DECEMBER 31	(36.1)	(35.3)

Note 17 - Other current receivables

Other current receivables break down as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Value Added Tax Receivables	129.0	127.3
Other Tax Receivables	115.0	82.1
Receivables from Employees	6.9	6.0
Prepaid Expenses (1)	106.4	122.9
Insurance Indemnities to be Received	5.7	2.5
Other (2)	107.6	172.7
TOTAL NET OTHER CURRENT RECEIVABLES	470.6	513.5

- Prepaid expenses mainly correspond to insurance costs, as well as building and construction rental expenses.
- (2) The line "Other" essentially includes the current accounts on joint venture contracts and partners' current accounts.

As of December 31, 2013, the portion of other current receivables with a maturity of less than 12 months amounted to €470.6 million. Other current receivables are non-interest bearing.

Note 18 - Cash and cash equivalents

Cash and cash equivalents break down as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Cash at Bank and in Hand	1,660.6	1,323.6
Cash Equivalents	1,580.4	965.7
TOTAL CASH AND CASH EQUIVALENTS	3,241.0	2,289.3
US Dollar	1,394.5	571.6
Euro	804.9	707.4
Pound Sterling	196.9	103.3
Brazilian Real	172.5	249.5
Norwegian Krone	139.7	124.0
Australian Dollar	88.2	100.6
Malaysian Ringgit	63.4	52.7
Japanese Yen	57.6	100.1
Other	323.3	280.1
TOTAL CASH AND CASH EQUIVALENTS BY CURRENCY	3,241.0	2,289.3
Certificates of Deposits	171.5	260.6
Fixed Term Deposits	1,344.0	702.1
Floating Rate Notes	1.5	3.0
Other	63.4	-
TOTAL CASH EQUIVALENTS BY NATURE	1,580.4	965.7

In accordance with Note 1-C (q) – Cash and cash equivalents, cash and cash equivalents consist of cash in bank and in hand, as well as marketable securities fulfilling the following criteria:

- a maturity of usually less than three months;
- highly liquid;
- a fixed exchange value; and
- an insignificant risk of loss of value.

A substantial portion of cash and marketable securities are recorded or invested in either Euro or US dollar which are frequently used by the Group within the framework of its commercial relationships. Cash and cash equivalents in other currencies correspond either to deposits retained by subsidiaries located in countries where such currencies are the national currencies in order to ensure their own liquidity, or to amounts received from customers prior to the payment of expenses in these same currencies or the payment of dividends. Short-term deposits are classified as cash equivalents along with the other marketable securities.

Note 19 - Assets and liabilities held for sale

As of December 31, 2013, two ageing vessels were accounted for as assets held for sale for a total amount of €4.0 million.

As of December 31, 2012, an ageing vessel was accounted for as an asset held for sale for a total amount of €9.9 million. This vessel was sold in 2013.

Note 20 - Shareholder's equity

(a) Changes in the parent company's share capital

As of December 31, 2013, Technip share capital consisted of 113,680,256 outstanding shares with a par value of €0.7625 each. Changes since January 1, 2012 break down as follows:

	Number of Shares	Share Capital (In millions of Euro)
Share Capital as of January 1, 2012 restated	110,987,758	84.6
Capital Increase due to Share Subscription Options Exercised	577,612	0.5
Capital Increase Reserved for Employees	1,475,143	1.1
Share Capital as of December 31, 2012 restated	113,040,513	86.2
Capital Increase due to Share Subscription Options Exercised	639,743	0.5
Capital Increase Reserved for Employees	-	-
SHARE CAPITAL AS OF DECEMBER 31, 2013	113,680,256	86.7

(b) Technip's shareholders as of December 31

As of December 31, 2013, to the Company's knowledge and based on notices and documents received by the Company, Technip's principal shareholders in percentage of share capital are as follows:

	As of December 31, 2013	As of December 31, 2012 restated
The Capital Group Companies Inc.	7.40%	5.00%
Banque Publique d'Investissement (former CDC)	5.20%	5.25%
Blackrock Inc.	4.85%	4.90%
Oppenheimer Funds Inc.	4.00%	2.85%
Causeway Capital Management	3.70%	2.10%
Amundi Asset Management	3.20%	3.30%
BNP Paribas Asset Management	2.85%	2.25%
IFP Énergies nouvelles	2.50%	2.50%
Norges Bank Investment Management	2.05%	3.00%
Group Employees	1.85%	2.65%
Treasury Shares	1.55%	2.10%
Natixis	0.90%	1.50%
Other	59.95%	62.60%
TOTAL	100.00%	100.00%

(c) Treasury shares

Changes in treasury shares are as follows:

	Number of Shares	Treasury Shares (In millions of Euro)
Treasury Shares as of January 1, 2012 restated	2,242,718	(109.3)
Shares Acquired pursuant to Liquidity Contract	437,013	(34.7)
Shares Sold pursuant to Liquidity Contract	(446,013)	34.7
Shares Purchased for Employees	1,337,110	(108.3)
Shares Granted to Employees	(1,199,847)	68.8
Treasury Shares as of December 31, 2012 restated	2,370,981	(148.8)
Shares Acquired pursuant to Liquidity Contract	786,843	(63.8)
Shares Sold pursuant to Liquidity Contract	(649,343)	54.0
Shares Purchased for Employees	486,590	(40.0)
Shares Granted to Employees	(1,220,320)	65.0
TREASURY SHARES AS OF DECEMBER 31, 2013	1,774,751	(133.6)

Treasury shares are held in order to serve performance share plans that were granted to employees in 2010, 2011, 2012 and 2013 as well as to serve share purchase option plans granted in 2008.

(d) Fair value reserves

Fair value reserve are as follows:

In millions of Euro	Cash Flow Hedges (IAS 32/39) ⁽¹⁾	Fair Value on Available-For- Sale Financial Assets (IAS 39)	Gains / (Losses) on Defined Benefit Pension Plans (IAS 19R)	Other	Total
Fair Value Reserves as of January 1, 2012 restated	(45.8)	69.2	_	(3.7)	19.7
Gross Effect	76.9	(42.4)	(16.3)	-	18.2
Tax Effect	(22.6)	1.5	7.3	-	(13.8)
Other	(4.0)	-	-	3.8	(0.2)
Fair Value Reserves as of December 31, 2012 restated	4.5	28.3	(9.0)	0.1	23.9
Gross Effect	56.9	(52.1)	(15.9)	-	(11.1)
Tax Effect	(17.2)	4.8	4.3	-	(8.1)
FAIR VALUE RESERVES AS OF DECEMBER 31, 2013	44.2	(19.0)	(20.6)	0.1	4.7

⁽¹⁾ Recorded under this heading is the efficient portion of the change in fair value of the financial instruments qualified as cash flow hedging (see Note 1-C (c) – Foreign currency transactions and financial instruments).

(e) Distributable retained earnings

As of December 31, 2013, distributable retained earnings of the parent company amounted to €2,967.2 million, including €2,030.5 million of share capital premiums.

(f) Statutory legal reserve

Under French Law, companies must allocate 5% of their statutory net profit to their legal reserve fund each year before dividends may be paid in respect of that year. Funds are allocated until the amount in the legal reserve is equal to 10% of the aggregate nominal value of the issued and outstanding share capital. The legal reserve may only be distributed to shareholders upon liquidation of the Company. As of December 31, 2013, the statutory legal reserve amounted to €9.8 million.

(g) Dividends paid and proposed

In 2013, the dividend paid for the financial year ended December 31, 2012 amounted to €186.0 million (i.e., €1,68 per share).

The recommended dividend in respect of 2013 is €1.85 per share and will be submitted for approval at the Shareholders' General Meeting to be held on April 24, 2014. Given that no decision was taken as of December 31, 2013, no impact was recorded in the 2013 financials.

In 2012, the dividend paid for the financial year ended December 31, 2011 amounted to €172.6 million (i.e., €1.58 per share).

⁽²⁾ Amounts correspond to the revaluation of MHB and GIFI shares based on the share price as of December 31 (see Note 13 – Available-for-sale financial assets). GIFI shares were sold in 2013.

⁽³⁾ Recorded under this heading the total amount of actuarial gains and losses on Defined Benefit Plans according to the amended IAS 19 applicable since January 1, 2013.

(h) Share subscription option plans and share purchase option plans

Technip plans

The Board of Directors has granted certain employees, senior executives and Directors or Officers (*mandataires sociaux*) of the Group and its affiliates, share subscription option plans or share purchase option plans at an agreed unit price. The main features and changes in plans that are in place for 2013 and 2012 are as follows:

Technip Plans Number of Options		Plan 2	2005		Plan 2008	Plan 2009		Plan 2010			Pian 2011		Plan :	2012	Plan 2013	Tota

⁽¹⁾ Share Subscription option plans exercisable four years from the date of grand and provided certain targets are met

The main features described in the table above take into consideration the following adjustments to the rights of option beneficiaries:

- The Board of Directors resolved to adjust the rights of option beneficiaries as of May 14, 2007 in order to take into account the extraordinary dividend deducted from retained earnings and approved by the Combined Shareholders' Meeting held on April 27, 2007. Consequently exercise prices and option numbers were recalculated for all plans;
- The Board of Directors resolved to adjust the rights of option beneficiaries as of May 14, 2008 in order to take into account the extraordinary dividend deducted from retained earnings and approved by the Combined Shareholders' Meeting held on May 6, 2008. Consequently exercise prices and option numbers were recalculated for all plans.

These options were granted subject to certain targets. This means that the final number of options granted to employees is contingent upon Technip achieving satisfactory performance for its shareholders.

For the 2005 plan, this performance will be measured as the increase in Group earnings per share compared to the average earnings per share growth for a sample of industry peers. For the 2008, 2009 and 2010 plans, this performance will be measured as the increase in Group consolidated net income compared to the average consolidated net income growth for a sample of industry peers. For the 2011, 2012 and 2013 plans, the performance will be respectively measured over the 2011-2013, 2012-2014 and 2013-2015 periods on the basis of several criteria: Group results in terms of Total Shareholder Return, operating income from recurring activities and return on capital employed.

IFRS 2 accounting charge

IFRS 2 applies to all share subscription and share purchase option plans granted after November 7, 2002 and whose rights were not vested as of January 1, 2005. Consequently, the Group recorded a charge of €9.9 million in 2013 compared to €10.2 million in 2012.

To evaluate these plans, and considering the lack of relevant historical information, the Group used the six general assumptions common to all options pricing models (exercise price, term, share price at grant date, expected volatility of share price, estimated dividends and risk-free interest rate for the option life). Regarding the

Share purchase options plans exercisable four years from the date of grant and provided certain targets are met.

assessment of volatility, the historical measures performed on the share price show great discrepancies depending upon the periods and the maturity chosen. In order to achieve a reliable measure of the future volatility, Technip decided to use an approach that consists in comparing measures of historical volatility over periods of 1 year, 2 years, 3 years and 5 years on the one hand and the share's implied volatility on the other.

The following table illustrates the assumptions used to calculate the charge. The Group uses the Cox Ross Rubinstein binomial model.

Average share price amounted to €82.05 in 2013 and €82.99 in 2012.

(i) Performance share plans

Since 2007, the Board of Directors has granted certain employees, senior executives and Directors or Officers (mandataires sociaux) of the Group and its affiliates, free shares subject to Technip achieving satisfactory performances, namely "performance shares". Following are the main features and changes in the plans that were in place for 2013 and 2012:

	Plan 2007		Plan 2008			Plan 2009			Plan 2010			Plan 2011		Plan	2012	Plan 2013	Total

From country to country, the vesting period of these plans is either three years from the date of grant (in which case the holding period is two years), or four years from the date of grant (in which case there is no holding period)

Performance shares were granted contingent upon the same performance conditions described in Note 20 (h) Share subscription and share purchase option plans except for the 2011, 2012 and 2013 plans. For these latter plans, the performance is respectively measured over the 2011-2013, 2012-2014 and 2013-2015 periods on the basis of several criteria. Group results in matter of Health/Safety/Environment, operating income from recurring activities and treasury generated from operating activities.

IFRS 2 accounting charge

IFRS 2 applies to the valuation of performance share grants. Consequently, the Group recorded a charge of €36.1 million in 2013 compared to €32.9 million in 2012.

Performance shares granted to employees will be served using treasury shares.

The fair value of performance share plans is determined according to the share price at grant date less discounted future dividends. The following table shows assumptions underlying the fair value computation of the plans:

	Plan 2007		Plan 2008			Plan 2009			Plan 2010			Plan 2011		Plan	Plan 2012	
	Part 1 Re- granted	Part 1	Part 2	Part 3	Part 1	Part 2	Part 1

Maturity Date	12-déc 11/12 & 01-juil 12/13	01- juil 12/13	09- déc 12/13	18- fév 13/14	15- juin- 13/14	25- oct -14	16- fév 14/15	23- juin- 14/15	15- déc 14/15	4- rnars- 15/16	17- juin- 15/16	14- déc 15/16	02- mars- 16/17	15- juin- 16/17	12- déc 16/17	14- juin- 17/18

(1) The turnover rate and fair value of performance shares differ from country to country.

Average share price amounted to €82.05 in 2013 and €82.99 in 2012.

(j) Capital management

Shareholders' equity breaks down into portions attributable to non-controlling interests and to equity holders of the parent company. Equity attributable to equity holders of the parent is equal to the share capital of Technip, the Group's parent company, cumulated results and other reserves, less treasury shares.

Treasury shares are primarily held for the following purposes:

- To serve share option plans or other share plans that were granted to employees, directors or officers of the Company.
 - During the financial year ended December 31, 2013, Technip continued its purchases of own shares under the program approved by the Shareholders' General Meeting held on April 26, 2012 and on April 25, 2013, for a period of 18 months and relating to a maximum number of shares not exceeding 10% of the shares comprising the share capital, at a maximum share price of €105 and €115. In all, 486,590 shares were bought during the period at an average price of €82.3, for a total of €40.0 million.
- To promote share trading and, in particular, to ensure the liquidity of shares pursuant to a liquidity contract, by an investment service provider. Pursuant to a contract dated February 12, 2010, and for a duration of one year as from this date, tacitly renewable, the Company engaged Crédit Agricole Cheuvreux to execute a liquidity contract in compliance with the AMAFI Code of Conduct.

During the financial year ended December 31, 2013, 786,843 shares were purchased and 649,343 shares were sold pursuant to the terms and conditions of this liquidity contract.

On the basis of the authorization granted by the Combined General Meeting held on April 28, 2011, (20th resolution), at its meeting on December 14, 2011, the Board of Directors of the Company decided to undertake a capital increase in favor of members of the Technip Group Savings Plan (PEG). Further to Technip's 2008 capital increase reserved for employees, this new international employee shareholding initiative is a continuation of the Group's policy to mobilize its staff towards the implementation of the Group's new strategy and to bring employees of Technip closer to the development and the results of the Group.

(k) Capital Increase Reserved for Employees

Technip did not realize any capital increase reserved for employees in 2013.

Technip SA, holding company of the Group, realized a capital increase for employees in 2012: this capital increase was offered to all Technip employees and its subsidiaries.

Three different plans were offered to these employees to subscribe to the capital increase:

- Technip "Classic Plan" allows recipients to subscribe Technip shares within a FCPE (Fonds Commun de Placement d'Entreprises. A FCPE is a French collective savings vehicle allowing employees to hold a portfolio invested in securities. The FCPE is managed by a management company on behalf of the employee investors holding units of the FCPE). Recipients can benefit from an Employer contribution as well as a 20% discount on the subscription price but are fully exposed to the change of the share value on the stock market. The holding period is five years.
- Technip "Secure Plan" allows employees to subscribe Technip shares within a FCPE and to benefit from an Employer contribution as well as a 20% discount on the subscription price while guaranteeing the initial investment at the end of the five years period, increased by the greater between the capitalized annual return of 2.0% and the protected average increase Technip share value compared to the reference price.
- Technip "Multiple Plan" allows the recipients to subscribe Technip shares within a FCPE or directly and to benefit from an Employer contribution as well as a 20% discount on the subscription price while guaranteeing at the end of the five years period, the initial investment increased by the greater between the capitalized annual return of 2.5% and 7.75 times the average increase in Technip share value compared to the reference price. The bank in charge of structuring the operation, finance nine Technip shares for one Technip share subscribed by an employee. The initial investment of the employee is guaranteed. The capital guarantee and the multiple of the average increase are obtained through the transfer to the bank of the discount, the dividends and the other financial rights related to the shares.

For some countries, depending of the national laws, only one or two of the three plans have been proposed. Terms and conditions of these plans have been adapted depending on local constraints linked to legal, tax or social matters. In some countries, Technip Multiple Plan has been replaced by a SAR plan (Stock Appreciation Rights).

Following this capital increase, the number of shares issued on July 10, 2012 is 1,109,527 shares, the increase in common stock amounts to €0.8 million, and the increase in Paid-in-Surplus amounts to €65.4 million, reduced by €0.9 million net charge being administrative costs linked to this operation, for a total of €64.5 million.

In addition, 365,616 new shares were issued related to the SAR Plan. The increase in common stock amounts to €0.3 million and the increase in Paid-in-Surplus amounts to €21.6 million, reduced by €0.3 million net charge being administrative costs linked to this operation, for a total of €21.3 million.

Main characteristics of the capital increase reserved for employees are presented in the schedule above.

		2012 « Classic »	2012 « Secure »	2012 « Multiple »

	(%)	18%	18%	18%
(C) Value of the opportunity gain	(in millions of Euro)	-	0.03	1.80
	(%)	NA	0.40%	2.90%
(A-B+C) OVERALL COST FOR THE GROUP (II	N MILLIONS OF EURO)	0.6	0.3	4.6

⁽¹⁾ The reference price is calculated based on Technip's average share value during the 20 trading days before the opening of the subscription period.

The total cost for Employer's contribution for these three plans amounts to €5.2 million and was recorded as an employee expenses in 2012.

Under the «classic' plan, the IFRS 2 expense related to this capital increase reserved for employees is determined in accordance with the method of the ANC (*Autorité des normes comptables*), taking into account the lock-up period of five years for the employee. This approach values the lock-up cost through a strategy where the employee would sell the locked-up shares on the forward market and then purchase the same number of shares on the spot market, financing the loan by the forward sale and by the dividends paid over the lock-up period.

Under the 'leveraged plans', the IFRS 2 expense includes also the opportunity gain for the employee, corresponding, through the issuer's involvement in the plans, to its access to volatility profile adapted to institutional investors rather than retail rates.

The IFRS 2 expense related to the discount amounts to €5.5 million and was recorded as an employee expenses in 2012.

As the Company did not realize a capital increase reserved for employees in 2013, no charge has been recorded.

⁽²⁾ Average interest rate charged by banks for an ordinary, non-revolving personal loan with a maximum maturity of five years granted to an individual with an average credit rating.

Note 21 - Financial debts (current and non-current)

(a) Financial debts, breakdown by nature

Financial Debts break down as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Convertible Bonds (1)	973.4	945.2
Private Placement (2)	867.1	517.2
Bank Borrowings (3)	562.9	243.3
Total Non-Current Financial Debts	2,403.4	1,705.7
Commercial Papers	134.0	150.0
Bank Borrowings	19.4	231.8
Accrued Interests Payables	21.1	18.6
Total Current Financial Debts	174.5	400.4
TOTAL FINANCIAL DEBTS	2,577.9	2,106.1

- (1) On December 15, 2011, Technip issued a bond with an option for conversion and/or exchangeable for new or existing shares (OCEANE) for a total amount of €497.6 million. In accordance with IAS 32, the OCEANE is recognized in two distinct components: a debt component is recognized at the amortized cost for an initial amount of €420.4 million and a conversion option component is recognized in equity for €73.1 million. As of December 31, 2013, the debt component amounted to €450.0 million (see b).

 On November 17, 2010, Technip issued a bond with an option for conversion and/or exchangeable for new or existing shares (OCEANE) for a total amount of €550 million. In accordance with IAS 32, the OCEANE is recognized in two distinct components: a debt component is recognized at the amortized cost for an initial amount of €480.9 million and a conversion option component is recognized in equity for €63.3 million. As of December 31, 2013, the debt component amounted to €521.7 million (see b).

 As of December 31, 2013, the remainder of the reimbursed part of the Convertible Debenture of Global Industries amounts of USD1 7 million
- (2) On July 27, 2010, Technip achieved a private placement for €200 million (recorded for €198 million as of December 31, 2013). The maturity is 10 years; the annual coupon rate is 5.0%.
 - On June 14, 2012, Technip achieved a private placement for €150 million (recorded for €149.8 million as of December 31, 2013). The maturity is 10 years; the annual coupon rate is 3.4%.
 - On June 14, 2012, Technip achieved a private placement for €100 million (recorded for €95.1 million as of December 31, 2013). The maturity is 20 years; the annual coupon rate is 4.0%.
 - On June 15, 2012, Technip achieved a private placement for €75 million (recorded for €74.9 million as of December 31, 2013). The maturity is 15 years; the annual coupon rate is 4.0%.
 - On October 7, 2013, Technip achieved a private placement for €100 million (recorded for €96.0 million as of December 31, 2013). The maturity is 20 years; the annual coupon rate is 3.75%.

 On October 16, 2013, Technip achieved a private placement for €130 million (recorded for €128.7 million as of December 31, 2013). The
 - On October 16, 2013, Technip achieved a private placement for €130 million (recorded for €128.7 million as of December 31, 2013). The maturity is 10 years; the annual coupon rate is 3.15%.
 - On October 18, 2013, Technip achieved a private placement for €125 million (recorded for €124.6 million as of December 31, 2013). The maturity is 10 years; the annual coupon rate is 3.15%.
- (3) Includes bank borrowings and credit facilities representing drawings on loans granted to one of the Brazilian subsidiaries for the purpose of pre-financing exports and re- financing investments, drawings on loans granted to a Norwegian subsidiary, to a Brazilian affiliate and to a Dutch subsidiary aimed at financing new vessels.

(b) Convertible bonds

On December 15, 2011, Technip issued a bond with an option for conversion and/or exchangeable for new or existing shares (OCEANE) for €497.6 million, with a maturity date of January 1, 2017.

The OCEANE convertible bond, which was approved by the French Securities Regulator (AMF) on December 7, 2011, has the main following features:

- issued at a price of €96.09 (the number of bonds issued was 5,178,455);
- a coupon of 0.25% payable on January 31 of each year, which amounts to €0.24 per year and per bond. (The first coupon payment on January 31, 2012 amounted to €0.03 per bond);
- a redemption date was set on January 1, 2017 for bonds not converted into shares at such date;
- the option for bondholders to convert their bonds into shares at any time at the ratio of one share for one bond; and

- the option for the Group to call for early redemption of the bonds at any time on or after the third anniversary of the issue date for a price at par plus accrued interest if the quoted value of the share exceeds 130% of the par value of the bond.

As required by IAS 32, the OCEANE convertible bond is recognized in two distinct components:

- a debt component is recognized at amortized cost for an initial amount of €420.4 million, net from its share of issuing costs. The effective rate is 3.7%. As of December 31, 2013, the debt component amounted to €450 million; and
- a conversion option component is recognized in equity for an amount equal to the difference between the issuing price of the OCEANE convertible bond and the value of the debt component. The carrying amount is recognized net of its proportionate share of the debt issuance costs for an amount of €73.1 million and net of corresponding deferred taxes. This value is not revalued but will be adjusted to take into account the conversion of bonds.

On November 17, 2010, Technip issued a bond with an option for conversion and/or exchangeable for new or existing shares (OCEANE) for approximately €550 million, with a maturity date of January 1, 2016.

The OCEANE convertible bond, which was approved by the French Securities Regulator (AMF) on November 9, 2010, has the main following features:

- issued at a price of €83.10 (the number of bonds issued was 6,618,531);
- a coupon of 0.50% payable on January 31 of each year, which amounts to €0.42 per year and per bond. (The first coupon payment on January 31, 2011 amounted to €0.09 per bond);
- a redemption date was set on January 1, 2016 for bonds not converted into shares at such date;
- the option for bondholders to convert their bonds into shares at any time at the ratio of one share for one bond; and
- the option for the Group to call for early redemption of the bonds at any time on or after the third anniversary of the issue date for a price at par plus accrued interest if the quoted value of the share exceeds 130% of the par value of the bond.

As required by IAS 32, the OCEANE convertible bond is recognized in two distinct components:

- a debt component is recognized at amortized cost for an initial amount of €480.9 million, net from its share of issuing costs. The effective rate is 3.2%. As of December 31, 2013, the debt component amounted to €521.7 million: and
- a conversion option component is recognized in equity for an amount equal to the difference between the
 issuing price of the OCEANE convertible bond and the value of the debt component. The carrying amount is
 recognized net of its proportionate share of the debt issuance costs for an amount of €63.3 million and net of
 corresponding deferred taxes. This value is not revalued but will be adjusted to take into account the
 conversion of bonds.

(c) Comparison of carrying amount of fair value of current and non-current financial debts

Comparison of carrying amount and fair value of non-current financial debts is as follows:

	As of Decemb	er 31, 2013	As of December 31, 2012 restated			
In millions of Euro	Carrying Amount	Fair Value	Carrying Amount	Fair Value		
Convertible Bond	973.4	940.8	945.2	1,009.4		
Private Placement	867.1	877.2	517.2	560.5		
Bank Borrowings and Credit Lines	562.9	562.9	243.3	243.3		
Total Non-Current Financial Debts	2,403.4	2,380.9	1,705.7	1,813.2		
Commercial Papers	134.0	134.0	150.0	150.0		
Bank Borrowings	19.4	19.4	231.8	231.8		
Accrued Interests Payables	21.1	21.1	18.6	18.6		
Total Current Financial Debts	174.5	174.5	400.4	400.4		
TOTAL FINANCIAL DEBTS	2,577.9	2,555.4	2,106.1	2,213.6		

(d) Analysis by type of interest rate

Analysis by type of interests rate after yield management is as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Fixed Rate	2,497.3	2,061.2
Floating Rate	80.6	44.9
TOTAL FINANCIAL DEBTS	2,577.9	2,106.1

As of December 31, 2013, the debt is essentially issued at fixed rate. The fixed rate debt mainly comprises the two convertible bonds, the private placements, drawings on subsidized export finance loans granted to one of the Brazilian subsidiaries for the purpose of pre-financing exports and re-financing investments, as well as drawings on loans granted to a Norwegian subsidiary for financing a vessel, drawings on a loan granted to a Brazilian affiliate aimed at financing two vessels and finally the commercial paper issued by Technip.

Over the financial year 2013, the average rate of the fixed rate debt was 3.72% compared to 3.92% in 2012. Over the same period, the average rate of the Group's overall debt (fixed and floating rate) was 3.73% compared to 3.93% per year in 2012. The average rate of debt is calculated by dividing the amount of financial costs for the fiscal year (excluding bank fees not expressly related to the debt) and the average outstanding debt for the fiscal year.

(e) Analysis by currency

Analysis by currency is as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Euro	1,992.0	1,628.2
US Dollar	167.0	157.9
Brazilian Real	376.8	267.9
Norwegian Krone	38.9	50.0
Other	3.2	2.1
Total Financial Debts	2,577.9	2,106.1

(f) Schedule of financial debts

The schedule of financial debts is as follows:

In millions of Euro	2014	2015	2016	2017	2018	2019 and beyond	Total
Fixed Rate	169.1	78.1	777.3	467.0	17.9	987.9	2,497.3
Floating Rate	5.4	8.3	8.7	8.5	8.7	41.0	80.6
TOTAL FINANCIAL DEBTS AS OF DECEMBER 31, 2013	174.5	86.4	786.0	475.5	26.6	1,028.9	2,577.9

In millions of Euro	2013	2014	2015	2016	2017	2018 and beyond	Total
Fixed Rate	368.3	15.3	87.6	521.9	448.2	619.9	2,061.2
Floating Rate	32.1	1.7	1.7	1.7	1.7	6.0	44.9
TOTAL FINANCIAL DEBTS AS OF DECEMBER 31, 2012 RESTATED	400.4	17.0	89.3	523.6	449.9	625.9	2,106.1

(g) Secured financial debts

Secured financial debts are as follows:

As of December 31, 2013

As of December 31, 2012 restated

In millions of Euro	Guaran- tee	Without Guaran- tee	Total	Guaran- tee	Without Guaran- tee	Total
Bank Overdrafts, Current Facilities and Other	_	_	_	-	-	-

Note 22 – Pensions and other long-term employee benefit plans

In accordance with the laws and practices of each country in which it operates, Technip manages retirement and similar benefit schemes on behalf of its employees.

In compliance with IAS 19, the Group has assessed its obligations in respect of employee pension plans and other long-term benefits such as "jubilee benefits", post-retirement medical benefits, special termination benefits and cash incentive plans. The plan assets are recorded at fair value. Evaluations were coordinated so that liabilities could be measured using recognized and uniform actuarial methods, and were performed by an independent actuary.

On June 2011, the IASB published an amended IAS 19. This amended standard is applicable retrospectively to annual periods beginning on or after January 1, 2013. It introduces the following changes:

- It modifies the valuation method regarding the long-term return on plan assets, which will be based on the discount rate used to measure the present value of the obligation.
- It eliminates the option of deferring actuarial gains and losses using the "corridor" approach. All actuarial gains and losses must now be recognized directly in other comprehensive income.
- It suppresses the deferral of past service cost on unvested benefits: all costs arising from past service are instead recognized immediately in the net Income.

(a) Description of the Group's current benefit plans

On all the Technip Group, five countries represent quite 90% of the group obligations: the Netherlands, France, United Kingdom, Germany and Norway.

Brazil

A jubilee plan provides a lump sum payment of half a month's salary after 10, 15, 20 and 30 years of service. The plan also pays for a short trip to Brazil and Paris after 20 and 30 years of service.

France

The following plans are offered in France:

- a retirement benefit consisting of a capital payment based on years of service and salary at retirement date;
- a post-retirement medical benefit (this is closed to new entrants to the plan);
- a jubilee plan that provides a lump sum payment after 20, 30, 35 and 40 years of services at all companies (a minimum number of years spent at Technip is required):
- an additional defined contribution pension plan was set up on January 1, 2005 dedicated to a predetermined and uniform class of top managers. A contribution of 8.0% of gross annual salary within the legal limits is paid by the Company;
- a complementary defined benefit pension plan was set up on May 1, 2007 for members of the Group's Executive Committee. It consists of a guaranteed retirement wage of 1.8% of income bracket 4 of annual gross compensation per year of service in the Executive Committee (up to a limit of 15 years of service).

Germany

The following plans are offered in Germany:

- two pension plans that offer a pension payable from age 65: (i) a deferred compensation plan and (ii) an early retirement plan (OAPT);
- a jubilee plan that provides a lump sum payment ranging from one to three months of salary when

employees reach 25, 40 and 45 years of service.

Italy

A post-retirement benefit that provides a capital payment according to the wages and years of service in the Company is offered to the employees. Following the change of Italian law in 2007, this defined benefit plan has been changed into a defined contribution plan. Consequently, no future right is generated in respect of IAS 19. The amount remaining in the books relates to the rights generated before the change of plan.

Norway

A pension plan offers a quaranteed income from age 67 depending on final gross salary and years of service.

The Netherlands

The Company has a defined benefit pension plan.

United Arab Emirates

A retirement benefit plan provides a payment according to the years of service in the Company (21 days of salary per year of service up to 5 years and 30 days of salary beyond 5 years) with a limit of 26 years.

United Kingdom

A pension plan offers an annuity payment (this plan is closed for new comers). There is also a multi-employer benefit plan providing employees of the mercantile marine with pensions on retirement and protection on death (this plan is also closed for newcomers).

Singapour

Multi-employer benefit plan providing employees of the mercantile marine (the same as United Kingdom one) with pensions on retirement and protection on death (this plan is also closed for newcomers).

(b) Net benefit expense recognized in the statement of income

The net benefit expense recognized in the statement of income breaks down as follows:

In millions of Euro	2013	2012 restated
Current Service Cost	19.4	20.0
Financial Cost of Benefit Obligation	12.2	14.9
Expected Return on Plan Assets	(6.3)	(7.2)
Net Actuarial Gain/(Loss) Recognized	(0.4)	0.8
Cash Incentive Plans	30.3	9.7
Administration Costs and Taxes	0.1	-
Net Benefit Expense as Recorded in the Statement of income	55.3	38.2

In addition to the defined benefit pension plan expense shown in the above table, defined contribution plan expenses amounted to €52.2 million in 2013, compared to €39.5 million in 2012.

The expected defined benefit plan expense for 2014 calculated on an estimated basis amounts to €31.9 million.

Defined contribution plan expenses expected for 2014 amount to €10.4 million.

Benefits plan cash flow for 2014 amount to €15.2 million.

The 2012 consolidated financial statements have been restated with the retrospective application of IAS 19 amended standards – Employee Benefits on January 1, 2013.

(c) Benefit asset/(liability) recognized in the statement of financial position

The liability as recorded in the statement of financial position breaks down as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Provisions	(264.4)	(213.3)
Prepaid Expenses	-	2.6
Asset/(Liability) as Recorded in the Statement of Financial Position	(264.4)	(210.7)

Defined Benefit Obligation	(413.5)	(374.0)
Fair Value of Plan Assets	195.6	176.1
Net Defined Benefit Obligation	(217.9)	(197.9)
Cash Incentive Plans	(46.5)	(12.8)
ASSET/(LIABILITY) AS RECORDED IN THE STATEMENT OF FINANCIAL POSITION	(264.4)	(210.7)

The discounted defined benefit obligation includes €272.3 million for funded plans and €141.2 million for unfunded plan assets.

Changes in the net benefit asset/(liability) of pension plans and other post-employment benefits are presented below:

In millions of Euro	2013	2012 restated
Net benefit Asset/(Liability) as of January 1	(210.7)	(173.6)
Exchange differences on Foreign Plans	5.2	0.4
Expenses Charged in the Income Statement	(25.1)	(29.9)
Contributions Paid	23.8	17.8
Actuarial Gains and losses	(16.0)	(16.3)
Disposals of Subsidiaries/Changes in Scope of Consolidation	(0.8)	-
Cash Incentive Plans	(30.3)	(9.7)
Other	(10.5)	0.6
NET BENEFIT ASSET/(LIABILITY) AS OF DECEMBER 31	(264.4)	(210.7)

The change in the DBO (Defined Benefit Obligation) is as follows:

In millions of Euro	2013	2012 restated
Defined Benefit Obligation as of January 1	(386.7)	(299.1)
Current Service Cost	(19.4)	(20.0)
Contributions by Employee	(0.3)	(0.1)
Financial Cost on Benefit Obligation	(12.2)	(14.9)
Benefits Paid	17.7	15.5
Actuarial Gains/(Losses)	(26.7)	(19.5)
Cash Incentive Plans	(30.3)	(9.9)
Administrative costs and taxes	(0.1)	-
Exchange Difference	9.5	(3.0)
Other	35.0	(35.7)
DEFINED BENEFIT OBLIGATION AS OF DECEMBER 31	(413.5)	(386.7)

Changes in fair value of plan assets are as follows:

In millions of Euro	2013	2012 restated
Fair Value of Plan Assets as of January 1	176.1	126.4
Expected Return	6.3	9.3
Contributions by Employer	14.3	10.2
Contributions by Employee	0.3	0.1
Benefits Paid	(8.2)	(7.9)
Actuarial Gains/(Losses)	11.1	(0.3)
Exchange Differences on Foreign Plans	(4.3)	2.6
Other	-	35.7
FAIR VALUE OF PLAN ASSETS AS OF DECEMBER 31	195.6	176.1

Below are the details of the principal categories of pension plan by country in terms of percentage of their total fair value:

En %	Bonds	Shares	Real Estate	Cash	Other	Total
Euroland	78%	20%	0%	0%	2%	100%
Norway	52%	6%	14%	23%	5%	100%
United Kingdom	40%	33%	0%	5%	22%	100%
Other	52%	14%	0%	4%	30%	100%

(d) Actuarial assumptions

The main assumptions on the 3 zones that make up more than 90% at the end of 2013 of the benefit obligations are detailed in the following table:

	As of December 31, 2013								
	Discount Rate	Future Salary Increase (above Inflation Rate)	Healthcare Cost Increase	Inflation Rate					
Euroland	3.30%	From 0.40% to 3.00%	3.00%	2.00%					
Norway	4.00%	2.70%	NA	1.80%					
United Kingdom	4.40%	1.50%	NA	3.55%					

	As of December 31, 2012 restated						
	Discount Rate	Future Salary Increase (above Inflation Rate)	Healthcare Cost Increase	Inflation Rate			
Euroland	3.10%	from 0.20% to 3.00%	3.00%	2.00%			
Norway	3.85%	2.40%	NA	2.10%			
United Kingdom	4.25%	1.50%	NA	2.60%			

The discount rates as of December 31, 2013 of the Euroland, United Kingdom and the United States zones (United Arab Emirates included) are determined by holding the benefit flows of services expected from the plans and by using a curve of yield built from a wide basket of bonds of companies of high quality (noted AA). The Norway one refers to the marked of covered bonds. Finally, in the countries where the market bonds of companies of high quality is insufficiently deep, the discount rates are measured in reference to governmental rates.

The references used to determine the discount rates in December 31, 2013 remain unchanged compared to 2012.

A 0.25% decrease in the discount rate would increase the defined benefit obligation by approximately 4.37%.

A 0.25% decrease in the Inflation Rate would decrease the defined benefit obligation by approximately 2.06%.

Note 23 – Provisions (current and non-current)

The principles used to evaluate the amounts and types of provisions for liabilities and charges are described in Note 1-C (u) — Provisions.

(a) Changes in provisions

Changes in provisions over financial year 2013 break down as follows:

In millions of Euro	As of January 1, 2013 restated	Increase	Used Reversals	Unused Reversals	Foreign Exchange Adjustments	Other	As of December 31, 2013
Pensions and other Long-Term Employee Benefits (1)	194.7	63.1	(24.8)	(8.9)	(5.5)	15.9	234.5
Tax	9.3	0.2	(0.6)	(1.9)	(0.4)	0.1	6.7
Litigation	0.3	2.0	-	-	-	-	2.3

Provisions for Claims Incurred but not Reported ⁽²⁾	7.5	-	(1.1)	(0.1)	(0.1)	w	6.2
Other Non-Current Provisions	17.2	0.9	(3.6)	(2.5)	(0.7)	0.8	12.1
Total Non-Current Provisions	229.0	66.2	(30.1)	(13.4)	(6.7)	16.8	261.8
Pensions and other Long-Term Employee Benefits ⁽¹⁾	16.0	22.2	(1.1)	(0.7)	(0.8)	(5.7)	29.9
Contingencies related to Contracts (3)	175.7	20.1	(69.9)	(5.7)	(8.1)	(2.9)	109.2
Restructuring	-	-	-	-	-	-	_
Tax	59.1	6.7	-	(34.9)	(5.1)	0.8	26.6
Litigation (4)	2.5	2.4	(0.2)	(1.7)	(0.3)	-	2.7
Provisions for Claims (2)	2.2	-	(0.6)	-	-	-	1.6
Other Current Provisions	105.5	14.3	(1.9)	(58.5)	(5.7)	(2.8)	50.9
Total Current Provisions	361.0	65.7	(73.7)	(101.5)	(20.0)	(10.6)	220.9
TOTAL PROVISIONS	590.0	131.9	(103.8)	(114.9)	(26.7)	6.2	482.7

See Note 22 – Pensions and other long-term employee benefit plans.

Schedule of provisions (b)

The following table shows the maturity of provisions forecast as of December 31, 2013:

In millions of Euro	As of 31 December, 2013	2014	2015	2016	2017	2018	2019	2020 and beyond
Pensions and other Long-Term Employee Benefits	234.5	-	53.2	14.2	9.5	9.9	11.5	136.2
Tax	6.7	_	5.8	-	-	-	0.9	-
Litigation	2.3	-	2.3	-	-	-	-	-

TOTAL PROVISIONS	482.7	165.9	95.5	14.7	9.6	10.0	12.5	174.5

Provisions for contingencies related to contracts which maturity cannot be precisely determined are usually presented in the less than one year category.

⁽²⁾ Provisions for Reinsurance are recorded at the level of the Group's captive reinsurance companies as per IFRS 4.

Provisions recognized on contingencies on contracts are related to litigations on contracts.

⁽³⁾ See Note 32 - Litigation and contingent liabilities.

The criteria for classifying an asset/liability as "current" or "non-current" in the statement of financial position are described in Note 1-C Accounting rules and policies.

Note 24 - Trade payables

Trade payables amounted to €2,481.0 million as of December 31, 2013 as compared to €2,094.5 million as of December 31, 2012.

Trade payables are non-interest bearing liabilities. Their maturities are linked to the operating cycle of contracts. As of December 31, 2013, trade payables with a maturity of less than 12 months amounted to €2,461.4 million.

Note 25 – Other liabilities (current and non-current)

Other current and non-current liabilities are as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Wages and Salaries	278.9	275.1
Social Security Costs	68.1	66.9
Other Tax Payables	126.9	166.7
Deferred Income	36.7	47.5
Accruals on Completed Contracts (1)	183.4	365.4
Current Accounts on Joint Ventures Contracts	29.3	45.1
Advances Received (2)	580.2	489.7
Other	58.5	77.5
Total Other Current Liabilities	1,362.0	1,533.9
Payables on Fixed Assets	61.4	54.0
Subsidies	11.4	9.4
Other	2.0	12.8
Total Other Non-Current Liabilities	74.8	76.2
TOTAL OTHER LIABILITIES	1,436.8	1,610.1

⁽¹⁾ When the contract is completed, accrued liabilities may be recorded to cover pending expenses until the client signs the final acceptance (see Note 1-C (b) – Long-term contracts).

The breakdown between current and non-current liabilities is detailed in Note 1-C Accounting rules and estimates. The portion of current liabilities with a maturity of less than 12 months amounted to €1,267.2 million as of December 31, 2013.

Note 26 - Financial instruments

In compliance with IFRS 7, information disclosed on financial instruments is as follows:

(a) Financial assets and liabilities by category

Financial assets and liabilities break down as follows:

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments depending on the valuation methods:

2,094.5

140.5

1,533.9

3,768.9

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly;
- Level 3: inputs which have a significant effect on the recorded fair value and that are not based on observable market data.

Due to their short maturities, the fair value of cash, cash equivalents, trade receivables and trade payables is considered as being equivalent to carrying value, due to their short maturities.

The following table shows a breakdown of financial assets and liabilities valued at fair value by hierarchy:

		As of December	r 31, 2013	
In millions of Euro	Level 1	Level 2	Level 3	Total
Financial Assets at Fair Value through P&L	-	6.7	-	6.7
Derivative Financial Instruments	-	123. 4	-	123.4

Note 27 – Payroll staff

Technip has a workforce of 39,000 people, in 48 countries, including an average of 6,400 contracted workforce integrated in operating teams.

Note 28 - Related parties disclosures

(a) Transactions with related parties

IFP Énergies nouvelles (IFP) is represented on Technip's Board of Directors. Its percentage of ownership amounted to 2.50% as of December 31, 2013 and 2.50% as of December 31, 2012.

Technip paid IFP a royalty in respect of an agreement for research cooperation on offshore deepwaters. This royalty is determined under arm's length conditions and amounted to €3.3 million in 2013 and €3.1 million in 2012. The amount paid to IFP was €3.8 million in 2013 and €2.6 million in 2012.

(b) Assets and liabilities, income and expenses with respect to associates in joint ventures

Credits and debts towards associates in joint ventures are as follows:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated
Trade Receivables	3.1	6.0
Trade Payables	2.7	14.8
NET TRADE RECEIVABLES/(PAYABLES)	0.4	(8.8)

Income and expenses generated with associates in joint ventures are as follows:

In millions of Euro	2013	2012 restated
Income	3.5	39.1

(c) Compensation of the Chairman and Chief Executive Officer

The compensation of the Company's Chairman and Chief Executive Officer is determined by the Board of Directors, upon the recommendation of the Nominations and Remunerations Committee (article 23.1 of the AFEP-MEDEF Code).

Every year, Technip appoints external and independent consultants, who are chosen by the Nominations and Remunerations Committee, to analyze the following market practices:

- 1. CAC40 companies excluding financial companies (34 companies in 2013)
- 2. Industrial and engineering companies belonging to CAC40 and SBF80 (31 companies in 2013)
- 3. European oil companies (nine companies in 2013) and
- 4. US oil companies based in Texas (20 companies in 2013).

The compensation of the Chairman and Chief Executive Officer is composed of both a fixed and a variable portion.

For 2013, the aggregate amount of compensation paid by the Company to Thierry Pilenko amounted to 1,765,341.0 (see Section 15.1.1, Table 2, for further details).

The variable portion of compensation is based on the fixed compensation for the previous year. For 2013, the target variable portion is equal to 100% of the annual base compensation. In accordance with Article 23.2.3 of the AFEP-MEDEF Code, the variable portion of the compensation is subject to precise and predetermined objectives. 70% of the target variable portion is linked to the financial performance of the Group (quantitative criteria) and 30% is linked to the achievement of individual objectives (qualitative criteria). These objectives are directly linked to Technip's strategy and cannot be disclosed for confidentiality reasons.

The share of the variable portion is linked with a financial target (70% of the total) and broken down into two objectives:

- up to 50% on the Group operating income budgeted for 2013: the share of the variable portion is (i) nil if real performance is below 80% of the budgeted amount (minimum level), (ii) between 0% and 100% for a performance equal to 80% to 100% of the budgeted amount, (iii) between 100% and 140% for a performance equal to 100% to 110% of the budgeted amount, (iv) between 140% and 160% for a performance equal to 110% to 120% of the budgeted amount and (v) between 160% and 200% for a performance equal to 120% to 125% of the budgeted amount (maximum level); and
- up to 20% on the percentage of gross margin on order intake: the share will be: (i) nil if real performance is below 80% of the budgeted amount (minimum level), and (ii) between 0% and 100% for a performance equal to 80% to 100% of the budgeted amount (maximum level).

The share of the variable portion corresponding to the individual objectives is composed as follows:

- Strategic criteria linked to the strategic development of the Group and to Quality;
- HSE criteria which is key to the Group;
- Criteria linked to human resources such as gender diversity, management and development of talents, succession plan.

If the Group current operating income achieved is superior to the budgeted objective, a multiplier rate is calculated, up to a maximum of 2. It is then applied to the other variable portion criteria to calculate the final variable share for 2013, which is capped at 200% of the target variable portion.

Based on the actual rate of achievement of objectives set for 2013 the variable compensation of Thierry Pilenko as mentioned hereabove has been calculated as follows:

Weight	Nature	Scale	Effective realization	Weighted realization	Actual amounts
	Financial				

70%	objectives (OIFRA, gross margin on order intake)	0 to 200%	100 - 110%	71.4%	€642,600
30%	Individual objectives	0 to 100%	80%	24%	€215,730
100%				95.4%	€858,330

The variable portion due to Thierry Pilenko for financial year 2013 is thus €858,330 and will be paid in 2014.

Furthermore, on June 14, 2013, the Board of Directors resolved that Thierry Pilenko may benefit from a deferred compensation equal to, at a maximum, 20% of his gross annual fixed compensation. This deferred compensation may be paid to him in 2016 at the double condition (i) that he is still in the Group and (ii) that performance conditions of the Group are achieved. The performance will be measured by the progression and achievement by Technip, over the financial years 2013, 2014 and 2015, of satisfactory performance in relation to Health/Security/Environment (HSE), Operating Income From Recurring Activities (OIFRA) and Order Intake.

Thierry Pilenko does not receive any directors' fees for the positions he holds as a director of the Company or in the Group companies.

In compliance with Article 23.2.6 of the AFEP-MEDEF Code, there is no specific retirement plan for Thierry Pilenko as the Chairman and Chief Executive Officer. The Chairman and Chief Executive Officer is a beneficiary of the supplementary retirement plan for Group executives, with fixed contributions of 8% of gross annual compensation paid up to the 3rd tranche, *i.e.*, eight times the annual French Social Security ceiling. The contribution for 2013 amounted to €23,700.

The Chairman and Chief Executive Officer also benefits from the Company's existing supplementary retirement plan for Executive Committee (Excom) members: a retirement income guarantee of 1.8% per year of service, on the 4th tranche of gross annual compensation paid, *i.e.*, exceeding eight times the French Social Security ceiling, which is compliant with the conditions established by Article 23.2.6 of the AFEP-MEDEF Code. In order to be eligible for the retirement plan, the minimum seniority to be taken into account is five years as Excom members, up to a limit of 15 years. The amount of gross compensation to which this retirement income guarantee applies corresponds to the average of the gross compensation, paid over the five financial years preceding the date of departure from the Company. The retirement income guarantee will only be due in the following events: a departure from the Company after his 60th birthday; a departure from the Company as a result of a 2nd or 3rd category disability (as defined under French law); a departure from the Company after his 55th birthday provided that such departure is not the result of gross misconduct or negligence (faute grave or faute lourde) on his part and that no professional activity is resumed between leaving the Company and receiving a pension under the general French Social Security scheme.

In compliance with Article 23.2.6 of the AFEP-MEDEF Code, the annual replacement ratio at retirement should not be higher that 45% of the reference income. The ratio for Thierry Pilenko complies with this condition.

In this last case, by exception, the Company did not take into account the requirement to remain in the Company having considered that the requirement for no professional activity was sufficiently restrictive.

50,000 share subscription options and 30,000 performance shares were granted to Thierry Pilenko over financial year 2013 corresponding to 0.07% of the social capital as of the General Meeting on April 25, 2013 (see Section 15.1.1, Tables 4 and 6, for further details).

In financial year 2013, Thierry Pilenko exercised 105,107 share purchase options (Table 5). It should be noted that the compensation policy of the Chairman and Chief Executive Officer, who is the only executive director (dirigeant mandataire social), is at risk: 100% of the granted shares, options and differed compensation is subject to performance conditions.

In addition, the Board of Directors fixed for the Chairman and Chief Executive Officer a holding rule for performance shares and stock options which have been granted since 2007 corresponding to 25% of the realized net gain, thus complying with Article 23.2.1 of the AFEP-MEDEF Code.

Furthermore, complying with recommendations of the AFEP-MEDEF Code, the Board of Directors decided that, on acquisition of performance shares, Thierry Pilenko will be required to buy a number of shares of the Company

corresponding to 5% of the acquired performance shares. This requirement will not apply to Thierry Pilenko as long as he owns Technip shares for a value equal to at least 100% of his net base compensation (the said compensation being that of the year preceding the acquisition of the performance shares, and the value of Technip share being that of the close of market of the day before the performance shares were acquired).

Thierry Pilenko is not a beneficiary of any share subscription warrants issued by the Company or any other company of the Group.

At the time of the renewal of Thierry Pilenko as Chairman of the Board of Directors during the meeting of the Board of Directors of April 28, 2011, it was decided to maintain the preexisting principles in the Company relating to a worldwide non-compete agreement for a 24-month period. According to this agreement, Thierry Pilenko could receive an amount corresponding to two years of gross fixed annual compensation paid (gross fixed compensation plus variable compensation). The basis of calculation is the best gross annual compensation paid these last three years.

(d) Compensation and retirement commitments of the Group's principal executives

In 2013, the total amount of all direct and indirect compensation paid by the Group's French and foreign companies to all of the Group's principal executives on payroll partly or totally during the year 2013 (*i.e.*, the six members of the Excom of the Group) amounted to €4,730,926. The variable portion represented 47.8% of the overall amount.

The charges relating to share purchase and share subscription options, as well as performance shares, granted to the Company's executive officers, and accounted for in 2013, amounted to €6.5 million.

In 2013, payment made by Group companies under supplementary retirement plans applicable to the principal executives discussed above amounted to €0.2 million. The recorded expense related to the retirement income guarantee plan for Executive Committee members amounted to €1.2 million in 2013.

As of December 31, 2013, the amount for retirement commitments for Executive Committee members amounted to €6.4 million.

Note 29 - Board of Directors compensation

The Shareholders' Meeting of April 25, 2013 set the amount of directors' fees allocated to members of the Board of Directors at €800,000 for each of financial years 2013, 2014 and 2015. The amount actually paid in 2013 was €760,165. In accordance with the recommendations of the AFEP-MEDEF Code, directors' fees include a variable portion to be paid depending on the attendance rate at meetings of the Board and its Committees (Article 21.1 of the AFEP-MEDEF Code).

The amount of directors' fees (*jetons de présence*) for financial years 2012 and 2013 which were paid to each of the Board members are detailed in Table 3 of Section 15.1.1 of this Reference Document.

The Board of Directors of December 10-11, 2013 approved the following distribution of directors' fees for 2013:

- a fixed amount of €480,000 divided equally among Board members (with the exception of the Chairman and Chief Executive Officer (CEO) who does not receive directors' fees from the Company and its subsidiaries) i.e. €40,000 per director, adjusted, if needed, on a prorata basis;
- an additional amount of €1,500 per Board meeting distributed among directors (other than the Chairman and CEO), depending on the attendance rate of the Board members for 2013, plus €500 when the attendance to the meeting requires travel within a continent or plus €2,000 when the attendance to the meeting requires transoceanic or transcontinental travel;
- an additional amount, for 2013, distributed among directors, depending on the attendance rate of the directors to the meetings of the Committees (other than the Chairman and CEO) as follows:
 - €1,500 per meeting of the Strategic Committee, the Nominations and Remunerations Committee, the Ethics and Governance Committee, with a supplementary amount of €8,000 for each of the Chairmen of these three Committees, adjusted, if needed, on a prorata basis,
 - o €2,000 per meeting of the Audit Committee with a supplementary amount of €12,000 for the

Chairman of this Committee, adjusted, if needed, on a prorata basis,

o €10,000 for the Senior Independent Director, adjusted, if needed, on a prorata basis.

During 2013, the gross amount of compensation and benefits of all kinds paid by Technip to the members of the Board of Directors was €1,765,341.0.

Note 30 - Joint ventures

According to the standard IAS 31 "Interests in joint ventures", a joint venture is a contractual arrangement whereby two or more parties undertake an economic activity that is subject to joint control. As of December 31, 2013, the Group is mainly involved in two types of joint arrangements: those set up for the purpose of fulfilling a defined construction contract and those set up to build and operate flexible pipeline installation vessels (PLSVs).

The list of entities participating in joint ventures corresponds to those affiliates that are consolidated under the proportional method with the following exceptions: Technip South Africa, Tipiel, Deep Oil Technology Inc., Spars International Inc., Petrolinvest, Technip Thailand, Technip MHB Hull Engineering Sdn Bhd.

The following amounts represent Technip's accumulated share of the assets, liabilities, income and expenses related to all joint ventures of the Group. These amounts are included in Technip's statement of financial position and statement of income:

In millions of Euro	As of December 31, 2013	As of December 31, 2012 restated

Income	566.8	223.4
Expenses	(519.1)	(79.8)
NET INCOME AFTER TAX	47.7	143.6

Current assets mainly include cash and cash equivalents; current liabilities include trade payables, construction contracts – amounts in liabilities, and current accounts with associated companies.

Note 31 – Off-balance sheet commitments

(a) Off-balance sheet commitments related to Group operating activities

The following table illustrates the breakdown of off-balance sheet commitments per maturity:

	•	s of Decem	ber 31, 2013		As of December 31, 2012 restated
	Amounts of Co	ommitments Date	by Maturity		
In millions of Euro	Less than 1 year	1 to 5 years	More than 5 years	Total	Total
Operating Leases	264.7	725.1	595.7	1,585.5	1,149.6
TOTAL CONTRACTUAL COMMITMENTS	264.7	725.1	595.7	1,585.5	1,149.6

		As of December 31, 2012 restated			
In millions of Euro	Amounts of Commitments by Maturity Date				
	Less than 1 year	1 to 5 years	More than 5 years	Total	Total
Commitments Given related to the Execution of Operating Contracts	920.1	3,188.6	1,554.4	5,663.1	4,328.1
Parent Company Guarantees	25,390.9	17,216.5	4,086.2	46,693.6	41,543.9
TOTAL COMMITMENTS GIVEN RELATED TO OPERATING ACTIVITIES	26,311.0	20,405.1	5,640.6	52,356.7	45,872.0

	As of December 31, 2013				
In millions of Euro	Amounts of Co	ommitments Date	action of the second se		
	Less than 1 year	1 to 5 years	More than 5 years	Total	Total
Other Commitments Received related to Operating Activities	329.5	291.7	111.7	732.9	610.3
TOTAL COMMITMENTS RECEIVED RELATED TO OPERATING ACTIVITIES	329.5	291.7	111.7	732.9	610.3

Operating leases and capital leases

The Group leases various equipment, vessels and buildings, mainly under lease contracts that will end within the next ten years. It is likely that the Group will have to renew or to replace them. The Group does not have any assets subject to a capital lease.

At year-end 2013, the rental expense amounted to €240.3 million compared to €215.0 million in 2012.

Guarantees related to operating activities

Commitments given relate mainly to guarantees or counter-guarantees given by banks and insurance companies to various customers in connection with ongoing contracts in order to secure due and proper performance of the contracts or following the payment of retention guarantees and advance billings (€5,663.1 million as of December 31, 2013).

Furthermore, parent company guarantees given by Technip or its affiliates to clients cover the due and proper performance of the specified construction contracts for which the average expiration period until the release of the commitment guarantees is approximately 5 years. The amounts disclosed under the parent company guarantees, which stand at €46,693.6 million as of December 31, 2013, include the portion of contract allocated to the Group's joint ventures partners. The latter amounts are neither decreased according to project percentage of completion, nor reduced by the amount of parent company guarantees received from Technip's partners in these joint ventures, same partners for which Technip issues parent company guarantees.

As of December 31, 2013, the parent company guarantees issued by Technip for contracts outside the scope of a joint venture amount to €19,249.1 million.

The following table illustrates the breakdown of €27,444.5 million of parent company guarantees issued by Technip as of December 31, 2013, in respect of joint venture contracts, according to the Group's percentage of ownership in these joint ventures.

As of December 31, 2013	As of December 31, 2012 restated	
Allocation as per % of Technip's Ownership in Joint Ventures	Total	

In millions of Euro	Less or equal to 25%	Greater than 25% and less or equal to 40%	Greater than 40%	Total	
Parent Company Guarantees Given within Joint Ventures	4,313.4	14,687.4	8,443.7	27,444.5	24,916.9

Commitments received relate mainly to similar guarantees obtained from suppliers or subcontractors in connection with ongoing contracts.

(b) Off-balance sheet commitments related to Group financing

The following table illustrates the breakdown of off-balance sheet commitments related to Group financing:

	Á	As of December 31, 2012 restated			
	Amounts of Commitments per Period				
In millions of Euro	Less than 1 year	1 to 5 years	More than 5 years	Total	Tota
Other Commitments Given related to Financing	-	_	1,020.0	1,020.0	448.8
TOTAL COMMITMENTS GIVEN RELATED TO FINANCING	-	-	1,020.0	1,020.0	448.8
		As of Decem	iber 31, 2013		As of December 31, 2012 restated
	Amounts of Co	ommitment	s per Period		
	Less than	1 to 5	More than	Total	Total

	Amounts of C	ommitments				
In millions of Euro	Less than 1 year	1 to 5 years	More than 5 years	Total	Total	
Credit Lines Received but not Used	92.6	1,588.7	-	1,681.3	1,461.7	
TOTAL COMMITMENTS RECEIVED RELATED TO FINANCING	92.6	1,588.7	-	1,681.3	1,461.7	

(c) Off-balance sheet commitments related to Group scope of consolidation

There is no significant commitment related to the Group scope of consolidation.

Note 32 - Litigation and contingent liabilities

(a) Litigation

As of the date hereof, there have been no governmental, legal or arbitration proceedings (including any such proceedings that are pending or threatened of which the Company is aware) over the previous 12 months, which may have, or have had a significant impact on the Group's financial position or profitability.

(b) Contingent liabilities

Individual training right

The law of May 4, 2004 provides that French company employees have the right to receive individual training, (the Droit Individuel à la Formation: Individual Training Right) of at least 20 hours per year, which can be accumulated over six years. At the end of the sixth year, the rights will be capped at 120 hours even if the hours have not been utilized by the employee. In accordance with Notice 2004-F of October 13, 2004 issued by the Emergency Committee of the French national accounting standards body (the Conseil national de la comptabilité),

which advises on the proper accounting for DIF, expenses are recognized during the financial year and do not require the recognition of a liability. They constitute the remuneration of a future service and not a past one. The Group has maintained this French method for accounting for DIF under IFRS given that the debt is uncertain, i.e. the employee could ask to use this right but is not obliged to and may in fact never request it.

In some specific cases, these expenses could not be considered as a future service: for example when an employee has resigned and asks to use his training rights during his notice period.

In 2013, in French entities of the Group, one resigning employee asked for this right. No employee has a conflict with the Group on the subject.

Accumulated unused individual staff training rights amounted to 306 000 hours as of December 31, 2013.

In addition, the lifelong professional training agreement of the main French subsidiary offers training opportunities in five different topics: technical skills, office application IT, management and communication, quality and HSE, and languages; these trainings opportunities are open to all employees. Technip spends around 4.5 % of its payroll on training costs (that is around 2.9% more than the 1.6% required by the law). Each year, around 65 % of employees attend at least one training session.

Note 33 - Market related exposure

(a) Liquidity risk

As of December 31, 2013, Standard & Poor's corporate credit rating for Technip was BBB+/Stable/A-2.

Technip's business generates negative working capital requirements. The contractual terms and conditions for payment are negotiated between the Group's entities and their clients, suppliers or subcontractors for the completion of projects. These terms and conditions provide the Group's entities with cash resources and are reflected in the accounts, in particular the consolidated accounts, by a negative working capital requirement.

- Technip's financing needs are met pursuant to a Group policy implemented by the Finance and Control Division
- Cash management is centralized at the head office and coordinated through finance departments located in the Group's main operating subsidiaries.

Technip Eurocash SNC, a French general partnership (société en nom collectif), acts to centralize cash pooling for the Group's main entities, in compliance with applicable laws and regulations in each of the relevant countries. Technip Eurocash SNC has entered into cash pooling agreements with most of the Group's subsidiaries to consolidate surplus cash and to meet their needs, except where local economic and financial considerations have required recourse to external local debt.

 As of December 31, 2013, the Group had multiple sources of finance whether for its general corporate needs or for financing new assets or operations.

■ 2010 PRIVATE PLACEMENT NOTES

On July 27, 2010, Technip received the proceeds of the €200 million private placement notes in accordance with contractual terms and conditions agreed on November 19, 2009. The purpose of this private placement was a partial refinancing of the 2004-2011 bond issue, which was repaid at its maturity date of May 26, 2011. The notes have a 10-year term commencing on July 27, 2010 and an annual coupon of 5%. This placement includes the usual covenants and default provisions that are standard for this type of bond issue and does not include any financial ratios. These notes are listed on the Luxembourg Stock Exchange.

■ 2010-2016 CONVERTIBLE BOND

On November 17, 2010, Technip issued 6,618,531 bonds convertible into and/or exchangeable for new or existing shares (OCEANE) for approximately €550 million. The bonds will be redeemed at par value on January 1, 2016, except in the event of an early conversion, exchange or redemption. Bondholders have the option to convert their bonds into shares at any time at the ratio of one share for one bond. In addition, the Group has the option to call for the early redemption of all outstanding bonds at any time on or after the third anniversary of the issue date for a price at par value plus accrued interest if the quoted value of the share exceeds 130% of the par value of the bond.

The nominal value of each bond was set at €83.10. The bonds are listed on the Euronext Paris market.

The bonds bear interest at an annual rate of 0.50% payable annually in arrears on January 31 of each year, *i.e.*, €0.42 per year and per bond.

The main purpose of the convertible bond issue was to partially refinance the 2004-2011 bond issue, as well as to secure long-term financing to cover the Group's recent investments.

The bonds are convertible into or exchangeable for new or existing Technip shares at the ratio of one share per bond, subject to future anti-dilution adjustments as described in the documentation, *i.e.*, the *Note d'opération* approved by the AMF on November 9, 2010 under No. 10-392.

The bond issue was rated BBB+ by Standard & Poor's. The *Note d'opération* includes covenants and default clauses standard for this type of bond issue, and does not include any financial ratios. The issue provides that in the event of a change of control of Technip, any bondholder may, at its sole option, request early redemption in cash of all or part of the bonds it owns.

As of the date of the issue of the bonds, the debt booked as non-current financial debt in the statement of financial position amounted to the fair value of the debt component. The fair value of the debt component is decreased by a proportion of the expenses related to the issue. The difference between the nominal value of the OCEANE and the fair value of its debt component is recorded as shareholders' equity. As of December 31, 2013, the amount of the bond booked as non-current financial debt in the statement of financial position amounted to €521.7 million and the amount booked as shareholders' equity amounted to €63.3 million. Please see Note 21 (b) in Section 20.1 of this Reference Document.

■ 2011-2017 CONVERTIBLE BOND

On December 15, 2011, Technip issued 5,178,455 bonds convertible into and/or exchangeable for new or existing shares (OCEANE) for approximately €497.6 million. The bonds will be redeemed at par value on January 1, 2017, except in the event of an early conversion, exchange or redemption. Bondholders have the option to convert their bonds into shares at any time at the ratio of one share for one bond. In addition, the Group has the option to call for early redemption of all outstanding bonds at any time on or after the third anniversary of the issue date for a price at par value plus accrued interest if the quoted value of the share exceeds 130% of the par value of the bond.

The nominal value of each bond was set at €96.09. The bonds are listed on the Euronext Paris market.

The bonds bear interest at an annual rate of 0.25% payable annually in arrears on January 31 of each year, *i.e.* approximately \leq 0.24 per year and per bond. The first coupon payment on January 31, 2013 amounted to approximately \leq 0.03 per bond.

The main purpose of the convertible bond issue was to partially replenish the Group's cash balances following the payment of Global Industries, Ltd shares for USD936.4 million in December 2011.

The bonds will be convertible into or exchangeable for new or existing Technip shares at the ratio of one share per bond, subject to future anti-dilution adjustments as described in the documentation, *i.e.*, the "Note d'opération" approved by the AMF on December 7, 2011 under No. 11-562.

The bond issue was rated BBB+ by Standard & Poor's. The "Note d'opération" includes standard covenants and default clauses for this type of bond issue and does not include any financial ratios. The issue provides that in the event of a change of control of Technip, any bondholder may, at its sole option, request the early redemption in cash of all or part of the bonds it owns.

As of the date of the issue of the bonds, the debt booked as non-current financial debt in the statement of financial position amounted to the fair value of the debt component. The fair value of the debt component is decreased by a proportion of the expenses related to the issue. The difference between the nominal value of the OCEANE and the fair value of its debt component is recorded as shareholders' equity. As of December 31, 2013, the amount of the bond booked as non-current financial debt in the statement of financial position amounted to €450.0 million and the amount booked as shareholders' equity amounted to €73.1 million. Please see Note 21 (b) in Section 20.1 of this Reference Document.

■ 2012 PRIVATE PLACEMENT NOTES

In June 2012, Technip concluded three long-term private placement notes, each subscribed by a different

investor, for an aggregate amount of €325 million. These bond issues consist of:

- €150 million 10-year private placement notes concluded on June 14, 2012, with an annual coupon of 3.40% payable annually in arrears on June 14 of each year. These private notes have been rated BBB+ by Standard & Poor's and are listed on the market NYSE Euronext Paris;
- €75 million 15-year private placement notes concluded on June 15, 2012, carrying an annual coupon of 4.0% payable annually in arrears on June 15 of each year. These private notes have been rated BBB+ by Standard & Poor's and are listed on the market NYSE Euronext Paris; and
- €100 million 20-year private placement notes concluded on June 14, 2012, with an annual coupon of 4.0% payable annually in arrears on June 14 of each year. These private notes are listed on the Frankfurt Stock Exchange.

These private placements are part of the general management of the Group's cash and liabilities and raise funds for general corporate purposes.

The *Notes d'opération* of these private placement notes include standard covenants and default clauses for these types of bond issues, and do not include any financial ratios. The issues provide that in the event of a change of control of Technip and a corresponding rating downgrade of the notes below BBB- deemed to have occurred in respect of that change of control, any bondholder may, at its sole option, request the early redemption of all the bonds it owns.

■ 2013 PRIVATE PLACEMENT NOTES

In October 2013, Technip concluded three long-term private placement notes, each subscribed by different investors, for an aggregate amount of €355 million. These bond issues consist of:

- €100 million 20-year private placement notes concluded on October 7, 2013, with an annual coupon of 3.75% payable annually in arrears on October 7 of each year;
- €130 million 10-year private placement notes concluded on October, 16 2013, with an annual coupon of 3.15% payable annually in arrears on October 16 of each year. These private notes have been rated BBB+ by Standard & Poor's and are listed on the Luxembourg Stock Exchange; and
- €125 million 10-year private placement notes concluded on October 18, 2013, carrying an annual coupon of 3.15% payable annually in arrears on October 18 of each year. These private notes are listed on the Luxembourg Stock Exchange.

These private placements are part of the general management of the Group's cash and liabilities and raise funds for general corporate purposes.

The *Notes d'opération* of these private placement notes include standard covenants and default clauses for these types of bond issues, and do not include any financial ratios. The issues provide that in the event of a change of control of Technip and a corresponding rating downgrade of the notes below BBB- deemed to have occurred in respect of that change of control, any bondholder may, at its sole option, request the early redemption of all the bonds it owns.

■ SKANDI ARCTIC FINANCING

In March 2009, Doftech DA (a 50% owned subsidiary of Technip) entered into a NOK1 billion facility agreement for the financing of the *Skandi Arctic* vessel. This facility will be reimbursed in 24 equal semi-annual installments from September 16, 2009 to March 16, 2021. As of December 31, 2013, the facility, fully drawn, amounted to NOK625.0 million following semi-annual payments commencing on September 16, 2009.

One tranche of the facility, corresponding to 70% of the total amount is granted at a fixed rate of 5.05% by the Norwegian financing institution Eksportfinans and benefits from a guarantee by GIEK. The other tranche of the facility is granted at a floating rate by a commercial bank.

This credit facility is guaranteed jointly, but not severally, by Technip Offshore International and by the ultimate parent company of the other shareholder of Doftech DA, on an equal basis. The credit facility also benefits from a mortgage over the *Skandi Arctic* vessel.

This credit agreement includes the covenants and default provisions that are standard for this type of credit agreement and does not include any financial ratios.

■ SKANDI VITÓRIA FINANCING

In April 2010, the Brazilian subsidiary Dofcon Navegação, a 50% owned subsidiary of Technip, and *Banco Nacional de Desenvolvimento Econômico e Social* (BNDES) entered into two loan agreements for a total amount of USD240 million with a fixed interest rate of 3.09% which has increased to approximately USD244 million (by capitalization of interest up until December 31, 2010), for the financing of the *Skandi Vitória* vessel.

The two loans will be reimbursed in 204 equal monthly installments from January 10, 2011 until December 10, 2027. As of December 31, 2013, the facility amounted to USD198.5million following the installments repaid since January 2011. Each of the loans is secured by joint and several guarantees given by Technip and the ultimate parent company of the other shareholder of Doftech Navegação and over a mortgage on the *Skandi Vitória* vessel

The loan agreements include covenant and default provisions that are standard for such facilities with BNDES, including a covenant that the loan amount does not exceed an amount such that the estimated value of the *Skandi Vitória* is greater than or equal to 110% of the loan amount.

■ SKANDI NITERÓI FINANCING

On May 5, 2011, the Brazilian subsidiary Dofcon Navegação, a 50% owned subsidiary of Technip, and *Banco Nacional de Desenvolvimento Econômico e Social* (BNDES) entered into two loan agreements for an initial total amount of USD136.5 million with a fixed interest rate of 3.40% p.a., for the financing of the *Skandi Niterói* vessel.

The first loan of USD105.5 million will be reimbursed in 210 equal monthly installments from July, 2011 until December, 2028. The second loan of USD31 million will be reimbursed in 204 equal monthly installments from January, 2012 until December, 2028. As of December 31, 2013, the facilities amounted to USD118.0 million following successive installments repaid since July 2011 and January 2012 in accordance with the terms of the loans.

Each of the loans is secured by joint and several guarantees given by Technip and the ultimate parent company of the other shareholder of Dofcon Navegação and by a mortgage over the *Skandi Niterói* vessel.

The loan agreements include covenants and default provisions that are standard for such facilities with BNDES, including a covenant that the loan amount does not exceed an amount such that the estimated value of the *Skandi Niterói* is greater than or equal to 110% of the loan amount.

■ TWO 550-TON LAYING TENSION CAPACITY PIPELAY SUPPORT VESSELS (PLSVs) FINANCING

On April 16, 2013, Technip Odebrecht PLSV CV, a limited partnership, formed between entities fully owned, directly and indirectly, by Technip and Odebrecht Oil & Gas (each holding 50% of the partnership), signed a USD584 million credit agreement as borrower, with several international banks and Eksportkreditt Norge AS (Norway) acting as lenders.

The purpose of the limited recourse credit agreement is for the borrower, as owner, to partially finance the construction of the two flexible pipeline installation vessels, for which, in May 2012, the borrower and a consortium between Technip Brazil (a subsidiary fully owned, directly and indirectly, by Technip) and its partner in the joint venture respectively signed two charter and service agreements with Petróleo Brasileiro S.A. (Petrobras) for a fixed period of five years, with an option to extend the agreements for five additional years by mutual consent.

The credit facility comprises three tranches: (a) a USD468.8 million commercial tranche, (b) a USD88 million Korea Trade Insurance Corporation (K-Sure) Tranche which is to be lent by a number of the international banks under insurance by K-Sure, and (c) a USD27.2 million Garantiinstituttet for eksportkreditt (GIEK) Tranche to be lent by Eksportkreditt Norge AS which will be guaranteed by GIEK (Norway), the last two tranches being available on delivery of the first vessel.

The interest rate of the GIEK tranche is a 2.4% p.a fixed rate plus the annual GIEK premium. The interest rates of the commercial tranche and K-Sure tranche are based on floating interest rates.

In June 2013, the interest rate with respect to a USD 422.7million notional amount of the credit was hedged, with a forward start on September 30, 2013, until March 31, 2020, to comply with a covenant to fix the interest rate of at least 75% of the floating interest rate tranche within 120 days after signature of the contract.

The credit will be repaid over the first five years, starting from the earlier of (i) six months after commencement of operations by the second vessel and (ii) September 30, 2015, and is based on a 12-year semi-annual amortization profile, including a principal repayment amount equal to 58.33% of the credit amount to be made immediately after the earlier of (i) the 10th semi-annual repayment and (ii) March 31, 2020, or subject to certain conditions three months after such applicable date. Subject to the approvals at the end of the first five years, pursuant to certain criteria, as determined by K-Sure or GIEK and by the lenders involved in the respective tranches, the repayment of the amounts due after the 10th semi-annual repayment under the K-Sure Tranche or the GIEK Tranche respectively could be extended over the following five years in accordance with the original 12-year semi-annual amortization profile of these tranches, including a principal repayment amount equal to 16.67% of the credit amount and to be made no later than three months after the 20th semi-annual repayment.

Subject to similar approvals at the end of the first ten years, the repayment of the amounts due after the 20th semi-annual repayment, if any, under the K-Sure Tranche or the GIEK Tranche respectively could be extended over the following two years in accordance with the original 12-year semi-annual amortization profile of these tranches, with a final maturity date of no later than March 31, 2027.

The credit includes a number of commitments severally made by entities fully owned, directly and indirectly, by Technip and by its partner in the joint venture, which are customary for limited recourse financing.

Each of Technip Ships (Netherlands) B.V. and Technip's partner in the joint-venture undertakes severally to provide their respective 50% share in (i) the USD146 million equity amount to be paid up prior to any drawing under the credit to Technip Odebrecht PLSV CV to maintain a projected minimum equity to debt ratio of 20:80 and (ii) the required amount, estimated as of December 31, 2013 at USD59.7 million, to be deposited in reserve accounts to be initially partially funded prior to the delivery of the first vessel, and entirely funded on the earlier of (i) six months after the commencement of operations by the second vessel and (ii) March 31, 2015.

Each of Flexibras and Technip's partner in the joint-venture undertakes severally to provide their respective 50% share in the payment to the joint-venture (i) of the additional equity contribution to the Partnership to cover potential cost overrun up to USD109.5 million in excess of the cost, as agreed with the lenders, to complete the vessels and (ii) of the 58.33% principal repayment amount to be made under each tranche of the credit after the 10th semi-annual repayment has been made, an amount up to USD340.6 million plus accrued interests then due, or thereafter (iii) if applicable, of the 16.67% principal repayment amount to be made under the K-Sure Tranche or of the GIEK Tranche after the 20th semi-annual repayment is made, an amount up to USD19.2 million plus accrued interests then due.

The credit will be secured by mortgages over the two vessels owned by the borrower; by pledges of its other assets (including several bank accounts); by assignment of its contracts including the charter agreements; by the pledge of some dedicated bank accounts of the consortium between Technip Brazil and Technip's partner in the joint venture; and by the assignment of the service agreements entered into by the consortium with Petrobras.

The credit agreement includes a financial covenant to maintain on every semi-annual repayment date, the ratio of the project cash flow before interest and after tax over the debt service paid in principal and interest for the last 12 months ("the debt service cover ratio") equal to or higher than 1.15x.

Dividends may be made by the borrower from the first anniversary of the date of commencement of operations by the second vessel, until the eighth semi-annual repayment (unless the repayment schedule of the K-Sure tranche or the GIEK tranche has been extended at the end of the first five (or 10 years), in the absence of default and if the most recently calculated debt service cover ratio was equal to or higher than 1.2x.

The credit agreement includes other covenants and default provisions that are standard for this type of project finance agreement.

The first drawing on the commercial tranche of the credit was made on May 16, 2013, and in part used to repay in full the USD84.1 million outstanding principal amount and USD5 million accrued interest due under a USD90 million Bridge Loan Agreement. The Bridge Loan Agreement, which had been extended with several guarantees by Flexibras and Technip's partner in the joint venture (each holding 50%) on behalf of the borrower in favor of the commercial bank acting as credit agent, was then terminated.

As of December 31, 2013 the outstanding amount of the commercial tranche of the credit was USD118.8 million.

■ ACUFLEX PLANT FINANCING

On September 2, 2013, Flexibras Tubos Flexiveis, one of the Group's Brazilian subsidiaries, met the last condition subsequent to the signing on December 18, 2012 of a loan agreement entered into with Banco Nacional de Desenvolvimento Econômico e Social (BNDES) for a total amount of BRL485 million, dedicated to the financing of the construction of the new Acuflex flexible pipes plant located in the Açu harbor in Brazil.

Part of the loan is granted at a floating interest rate, while 37% of the total amount is granted at a fixed rate of 2.5%.

The loan will be reimbursed in 96 equal monthly installments from January 15, 2015 until December 15, 2022.

The loan agreement includes covenants and default provisions that are standard for such facilities with BNDES excluding any financial ratios. The loan is secured by a guarantee from Technip and is not secured by any asset.

As of December 31, 2013, the outstanding amount of the loan was BRL235 million.

■ BANCO NACIONAL DE DESENVOLVIMENTO ECONÔMICO E SOCIAL (BNDES) FACILITIES

As of December 31, 2013, Flexibras Tubos Flexiveis had seven separate loans pursuant to agreements entered into between August 2012 and April 2013 for a total amount of BRL400 million, to sustain the pre-financing of its export operations.

Each facility was entered into on behalf of BNDES in connection with BNDES financing. The seven loan agreements include the standard default provisions for such facilities with BNDES and do not include any financial ratios.

As of December 31, 2013, these fixed-rate loans were fully drawn and consisted of:

- two separate loan agreements for a total amount of BRL85 million entered into in August 2012, each with different commercial banks (each facility of BRL50 million and BRL35 million, respectively). Both facilities have a single redemption date of September 15, 2015;
- three separate loan agreements for a total amount of BRL115 million, each concluded with different commercial banks in November 2012. Two facilities of BRL32.5 million each have a single redemption date of November 15, 2015. The facility of BRL50 million has a redemption date of December 15, 2015; and
- two separate loan agreements for a total amount of BRL200 million entered into in April 2013, each with a different commercial bank for EUR100 million. Both facilities have a single redemption date of April 15, 2016.

On the respective maturity dates in April, June and July 2013, Flexibras Tubos Flexiveis redeemed the ten separate loans for a total amount of BRL500 million, which had been entered into between June 2010 and December 2011.

■ EXPORT CREDIT NOTES (NCE - NOTA DE CRÉDITO À EXPORTAÇÃO)

As of December 31, 2013, Flexibras Tubos Flexiveis, one of the Group's Brazilian subsidiaries, had six separate NCE loans entered into between February and March 2013 for a total amount of BRL572 million to sustain the pre-financing of its export operations.

The loans were entered into with five different commercial banks. The six loan agreements include the standard default provisions for such facilities and do not include any financial ratios.

As of December 31, 2013, these fixed interest rate loans were fully drawn and consisted of:

- three separate loan agreements for a total amount of BRL300 million, each concluded with different commercial banks in February 2013, each loan agreement of the sum of BRL100 million. These loans have respective redemption dates of January 15, 2016, February 15, 2016 and February 19, 2016; and
- three separate loan agreements for a total amount of BRL272 million concluded in March 2013, each with different commercial banks. The BRL92 million loan has a redemption date of February 15, 2016, the BRL80 million loan has a maturity date of March 7, 2016 and the BRL100 million loan has a maturity date of March 15, 2016.

■ GLOBAL INDUSTRIES BOND

On January 11, 2012, following the acquisition of Global Industries, Ltd. by Technip and its delisting from NASDAQ (New York), to comply with the conditions set out in the original offering memorandum of the 2.75% USD325 million Senior Convertible Debentures, due on August 1, 2027, issued on July 27, 2007, Global Industries, Ltd. reimbursed a principal amount of USD322.6 million, corresponding to 99.3% of the outstanding debentures, and paid accrued interest of approximately USD3.9 million to the bondholders. As of December 31, 2013, the non-tendered bonds amounted to USD2.4 million.

■ SYNDICATED CREDIT FACILITY AND BILATERAL FACILITIES

As of December 31, 2013, the Group had various unutilized financing sources for an aggregate amount of €1,435.8 million that allow it to meet its general financing needs. These facilities are not secured by any of the Group's assets. They contain covenants and default provisions that are standard for such financing, to be met by Technip and a number of its affiliates, and do not include any financial ratios. These credit agreements do not include early payment provisions in case of deterioration of the borrower's credit rating.

- 1. The credit facility in the amount of €1 billion put in place on July 21, 2011 and which may be drawn in Euros, in US dollars or in British pounds, has been extended to July 21, 2018, following the second one-year extension in June 2013 at the borrowers' option, subject to the lenders' approval.
 - In the event the facility is utilized, it will entail a floating interest rate and an applicable margin which varies according to a schedule of Technip's credit rating.
- 2. In 2012, five separate credit facilities with a total amount of €420 million, which may be drawn in Euros, were granted to Technip and replaced the existing facilities. Following bilateral negotiations, the amounts and maturity dates are as follows:
 - an €80 million facility, which has been extended to July 25, 2015 subsequent to the second one-year extension at the borrowers' option, subject to the lender's approval;
 - a €100 million facility with a maturity date of July 25, 2015;
 - an €80 million facility with a maturity date of July 31, 2015;
 - an €80 million facility with a maturity date of August 2, 2015; and
 - an €80 million facility with a maturity date of July 27, 2016, after a €40 million reduction on July 27, 2015.
- 3. Various unutilized credit facilities amounting to €15.8 million were granted to Technip.

These credit agreements include a floating interest rate in the event that they are utilized as well as standard default provisions.

As of December 31, 2013, the credit facilities confirmed and available to the Group amounted to €1,681.3 million, of which €1,588.7 million is available after December 31, 2014. Out of this total of 1,681.3 €million, €261.3 million is reserved for the financing of certain assets or for certain subsidiaries, such as USD168.7 million allocated for Technip's 50% share in the 550-ton laying tension capacity pipelay support vessels financing and USD76.8 million relating to the financing of the Acuflex plant.

In 2013, Technip issued once more on the commercial paper market in light of favorable market conditions. As of December 31, 2013, the outstanding commercial paper amounted to €134 million. The Group retains an authorization from the Banque de France for a maximum amount of €600 million.

As of December 31, 2013, debt falling due in 2014 and 2015 amounted to €260.9 million including €21.1 million of accrued interest and fees and €239.8 million of the principal amount.

Schedule of contractual outstanding cash flows related to financial liabilities

		As of December 31, 2013					
In millions of Euro	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years	Total		
Bond Issue	-	_	-	1.7	1.7

Other Bank Borrowings	17.1	-	-	=	17.1
Derivative Financial Instruments	26.1	6.6	-	-	32.7
TOTAL CURRENT FINANCIAL LIABILITIES	247.0	6.6	-	-	253.6

Payment due dates related to debts include projected interest payments, even if they are not accrued on the closing date. Floating rates used to calculate projected interest payments are the rates in force as of December 31, 2013.

	As of December 31, 2012 restated						
In millions of Euro	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years	Total		
Bond Issue	_	_	-	1.8	1.8		
Convertible Bonds	-	-	1,047.6	-	1,047.6		
Private Placement	-	-	_	525.0	525.0		
Bank Borrowings	-	16.8	119.4	107.2	243.4		
Accrued Interest Payables on Bond Loans	-	4.0	5.3	-	9.3		
Other Accrued Interest Payables	-	34.6	87.0	163.3	284.9		
TOTAL NON-CURRENT FINANCIAL LIABILITIES	-	55.4	1,259.3	797.3	2,112.0		
Commercial Papers	150.0	-	-	-	150.0		
Bank Overdrafts	0.3	-	-	_	0.3		
Accrued Interest Payables on Bond Loans	4.0	-	-	-	4.0		
Other Accrued Interest Payables	40.4	-	-	-	40.4		
Other Bank Borrowings	231.5	-	-	-	231.5		
Derivative Financial Instruments	29.6	6.0	2.9	-	38.5		
TOTAL CURRENT FINANCIAL LIABILITIES	455.8	6.0	2.9	-	464.7		

Contractual amounts as stated in the analysis of maturities relate to undiscounted contractual cash flows. These undiscounted cash flows may differ from the amounts as recognized in the statement of financial position which are based on discounted cash flows.

(b) Currency risk

As indicated in Note 1-C (c) – Foreign currency transactions and financial instruments, Technip uses financial instruments to protect itself against currency risks incurred in the normal course of its business. The Group does not use financial instruments for trading or speculative purposes. The exchange hedging contracts are divided across several counterparties who have been selected after due consideration.

The primary hedging instruments used to manage Technip's exposure to currency risks are as follows:

			2012 restated	
In millions of Euro	Matur	Nominal Value	Nominal Value	
	2014	2015 and beyond		
Buy Foreign Currencies/Sell Euros	113.5	39.0	152.5	179.7
Sell Foreign Currencies/Buy Euros	1,981.8	804.0	2,785.8	1,172.9
Buy/Sell Foreign Currencies	682.0	673.8	1,355.8	974.5
TOTAL HEDGING INSTRUMENTS	2,777.3	1,516.8	4,294.1	2,327.1

Exchange risk is mainly related to the US dollar and the Pound Sterling.

A change in the US dollar spot price by plus or minus 10% at closing date, calculated on the entire portfolio of Euro/US dollar derivatives, would generate a change of plus or minus €47.8 million in the result before tax and plus or minus €180.7 million in fair value reserves in equity.

A change in the Pound Sterling spot price by plus or minus 10% at closing date, calculated on the entire portfolio of Euro/Pound Sterling derivatives, would generate a change of plus or minus €8.9 million in the result before tax and plus or minus €19 million in fair value reserves in equity.

(c) Interest rate risk

Analysis of the sensitivity of the situation

Technip's floating rate debt amounted to €80.6 million compared to an aggregate total debt of €2,577.9 million.

Cash is invested short-term to ensure liquidity. Financial products are subject to fluctuations in currency interest rates.

As of December 31, 2013, the net short-term cash position of the Group (cash and cash equivalents, less short term financial debts) amounted to €3,066.5 million.

As of December 31, 2013, a 1% (100 basis points) increase in interest rates would lower the fair value of the fixed rate convertible bonds (OCEANE) and private placements by \in 88.5 million before tax. A 1% (100 basis points) increase in interest rates would raise the fair value by \in 102.3 million before tax.

A 1% (100 basis points) increase in interest rates would generate an additional profit of €29.9 million before tax in the net cash position. A 1% (100 basis points) decrease in interest rates would generate a loss of the same amount.

Interest rate risk monitoring method

Technip regularly analyses its exposure to interest rate risk. This activity is the responsibility of the Treasury Department, which reports directly to the Deputy CFO.

The Group does not use financial instruments for speculative purposes.

In 2013, an interest rate swap was set up to fix part of the rate of the debt granted to a Dutch subsidiary for the purpose of financing two new vessels.

(d) Credit risk

A significant portion of the Group's activity is concentrated with a limited number of clients because the worldwide market is dominated by a small number of major oil and gas companies. Consequently, the Group regularly performs credit risk analysis before entering into contracts and has set up procedures for monitoring payments made by customers.

The schedule of past due but not impaired trade receivables is the following:

As of December 31, 2013 Not impaired on the Reporting Date and Past Due in the Following Periods							
In millions of Euro	Less than 3 months	3 to 12 months	Over 1 year	Total	Total Trade		
Trade Receivables	347.7	288.6	34.0	670.3	1,745.2		
			ember 31, 2012 restate				

In millions of Euro	Less than 3 months	3 to 12 months	Over 1 year	Total	Total Trade Receivables
Trade Receivables	151.7	127.7	58.2	337.6	1,272.8

As of December 31, 2013, the main counterparty for cash and cash equivalents represents 12.0% of total net cash position. The principal counterparty for derivative financial instruments represents 16.2% of the Group's total derivative financial instruments. The set of counterparties for the Group's operations was limited to bank institutions that were considered as the safest, mostly noted AA and A.

Note 34 - Auditor's fees and services

Auditors' fees and services break down as follows:

		Ernst &	Young		Pric	ouseCoopers			
14b	2013		2012	2012		2013		2012	
In thousands of Euro	Amount	%	Amount	%	Amount	%	Amount	%
