

Investor Relations Overview

October 2023

Disclaimer Forward-looking statements

This communication contains "forward-looking statements" as defined in Section 27A of the United States Securities Act of 1933, as amended, and Section 21E of the United States Securities Exchange Act of 1934, as amended. Forward-looking statements usually relate to future events, market growth and recovery, earnings, cash flows, or other aspects of our operations or operating results. Forward-looking statements are often identified by words such as "commit," "guidance," "confident," "believe," "expect," "anticipate," "plan," "intend," "foresee," "should," "would," "could," "may," "will," "likely," "predicated," "estimate," "outlook" and similar expressions, including the negative thereof. The absence of these words, however, does not mean that the statements are not forward-looking. These forward-looking statements are based on our current expectations, beliefs, and assumptions concerning future developments and business conditions and their potential effect on us. While management believes these forward-looking statements are reasonable as and when made, there can be no assurance that future developments affecting us will be those that we anticipate. All of our forward-looking statements involve risks and uncertainties (some of which are significant or beyond our control) and assumptions that could cause future results to differ materially from our historical experience and our present expectations or projections, including unpredictable trends in the demand for and price of crude oil and natural gas; competition and unanticipated changes relating to competitive factors in our industry, including ongoing industry consolidation; the COVID-19 pandemic and any resurgence thereof; our inability to develop, implement and protect new technologies and services and intellectual property related thereto, including new technologies and services for our New Energy business; the cumulative loss of major contracts, customers or alliances and unfavorable credit and commercial terms of certain contracts; disruptions in the political, regulatory, economic and social conditions of the countries in which we conduct business including the impact of the Russia-Ukraine and Israel-Hamas wars; the refusal of DTC to act as depository agency for our shares; the impact of our existing and future indebtedness and the restrictions on our operations by terms of the agreements governing our existing indebtedness; the risks caused by our acquisition and divestiture activities; additional costs or risks from increasing scrutiny and expectations regarding ESG matters; uncertainties related to our investments in New Energy business; the risks caused by fixed-price contracts; our failure to timely deliver our backlog; our reliance on subcontractors, suppliers and our joint venture partners; a failure or breach of our IT infrastructure or that of our subcontractors, suppliers or joint venture partners, including as a result of cyber-attacks; risks of pirates endangering our maritime employees and assets; any delays and cost overruns of new capital asset construction projects for vessels and manufacturing facilities; potential liabilities inherent in the industries in which we operate or have operated; our failure to comply with existing and future laws and regulations, including those related to environmental protection, climate change, health and safety, labor and employment, import/export controls, currency exchange, bribery and corruption, taxation, privacy, data protection and data security; the additional restrictions on dividend payouts or share repurchases as an English public limited company; uninsured claims and litigation against us; tax laws, treaties and regulations and any unfavorable findings by relevant tax authorities; potential departure of our key managers and employees; adverse seasonal and weather conditions and unfavorable currency exchange rates; risk in connection with our defined benefit pension plan commitments; and our inability to obtain sufficient bonding capacity for certain contracts, and other risks as discussed in Part I, Item 1A, "Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2022 and our other reports subsequently filed with the Securities and Exchange Commission.

We caution you not to place undue reliance on any forward-looking statements, which speak only as of the date hereof. We undertake no obligation to publicly update or revise any of our forward-looking statements after the date they are made, whether as a result of new information, future events or otherwise, except to the extent required by law.

Section 1: Operational and financial highlights

Q3 2023 Operational summary

Takeaways

Operating results for both segments now expected above midpoint of full-year guidance

Subsea inbound over next five quarters to approach \$11 billion

Highlights

- ▶ Subsea inbound of \$1.8 billion, a book-to-bill of 1.1; full-year Subsea orders expected to exceed \$9 billion
- ▶ Significant orders for flexible pipe, including our largest ever contract in the Gulf of Mexico
- ▶ Total Company backlog of \$13.2 billion, including Subsea of \$12.1 billion

Q3 2023 Financial results

Sequential highlights

- ▶ Total Company adjusted EBITDA of \$284 million, excluding foreign exchange:
 - Subsea increased due to higher volume and favorable mix
 - Surface Technologies increased due to improved operational performance in the Middle East
- Cash flow from operating activities of \$222 million, free cash flow of \$178 million
- Cash and cash equivalents of \$691 million; net debt reduced \$194 million to \$650 million
- Total shareholder distributions of \$72 million (share repurchase + dividend)

\$2.1B

Inbound orders

\$13.2B **Backlog**

\$284M **Adjusted EBITDA**

excluding F/X

\$178M Free cash flow

Removed **AZULE ENERGY** BL 15/06 Ndungu **EQUINOR** Rosebank **PETRORIO** Wahoo

PETROBRAS Mero 3 HiSep Increase to above \$1,000M (Previously \$500M to \$1,00M)

Change in Scope Value

¹ October 2023 update; project value ranges reflect potential subsea scope

2023 Full-year financial guidance¹ As of February 23, 2023

Subsea

- ▶ **Revenue** in a range of \$5.9 6.3 billion
- ▶ Adjusted EBITDA margin in a range of 12.5 13.5%

Surface Technologies

- ▶ **Revenue** in a range of \$1.3 1.45 billion
- ▶ Adjusted EBITDA margin in a range of 12 14%

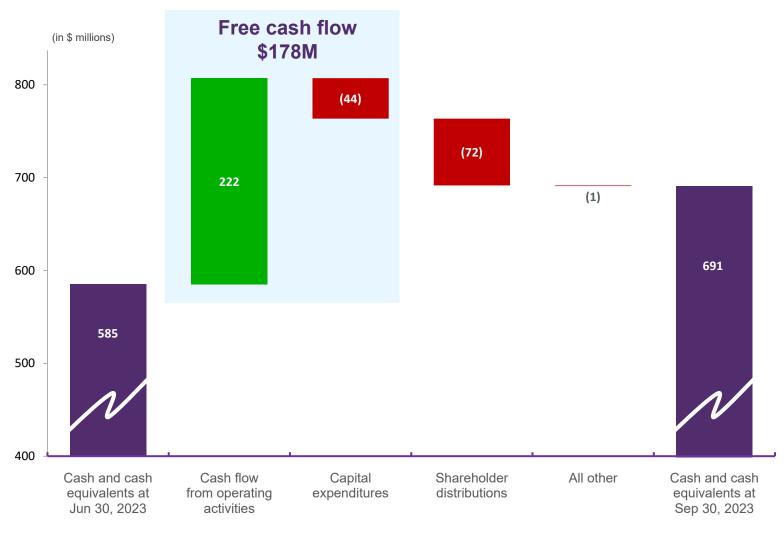

TechnipFMC

- **Corporate expense, net** \$100 110 million (includes depreciation and amortization of ~\$5 million; excludes charges and credits)
- **Net interest expense** \$100 110 million
- Tax provision, as reported \$155 165 million
- Capital expenditures approximately \$250 million
- Free cash flow² \$225 375 million

¹Our guidance measures of adjusted EBITDA, adjusted EBITDA margin, free cash flow, free cash flow conversion and adjusted corporate expense, net are non-GAAP financial measures. We are unable to provide a reconciliation to comparable GAAP financial measures on a forward-looking basis without unreasonable effort because of the unpredictability of the individual components of the most directly comparable GAAP financial measure and the variability of items excluded from each such measure. Such information may have a significant, and potentially unpredictable, impact on our future financial results. ²Free cash flow is calculated as cash flow from operations less capital expenditures

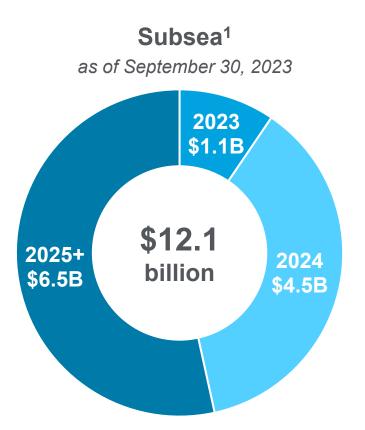

Q3 2023 Cash flow and net debt

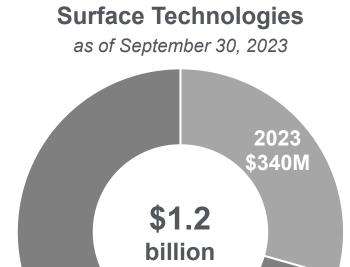

<u>Net Debt</u> (In millions, unaudited)									
	September 30, 2023								
Cash and cash equivalents	\$	691							
Short-term debt and current portion of long-term debt		(407)							
Long-term debt, less current portion		(933)							
Net debt	\$	(650)

Section 2: Company overview

TechnipFMC snapshot

#1

Integrated solutions provider for the oil and gas industry

Pillars for Energy Transition (Offshore floating renewables, GHG removal, Hydrogen)

Countries with current operations

>90%

Total company international revenue (Non-NAM land)^{1,2}

\$7.4bn

Total company revenue²

\$13.2bn

Total company backlog³

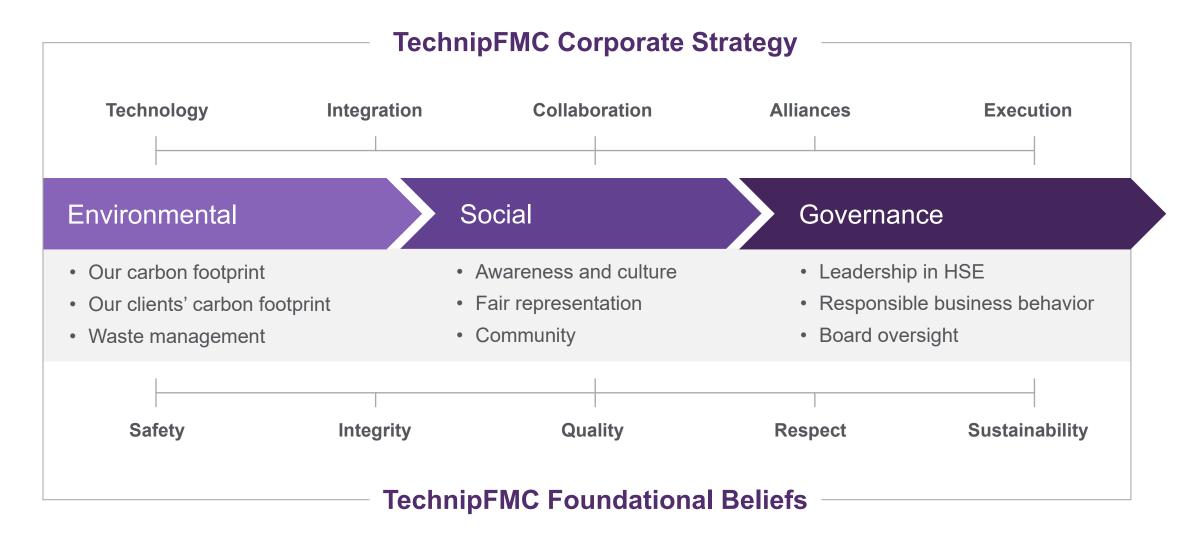

Note: financials shown on U.S. GAAP basis

- International revenue includes total revenue for Subsea and revenue outside North America for Surface Technologies
- As of 9/30/23. Backlog includes Subsea (\$12.1bn consolidated) and Surface Technologies (\$1.2bn)

ESG and TechnipFMC

Our corporate strategy and foundational beliefs drive our approach to ESG practices

Our environmental focus on carbon reduction

50 by

Targeting 50% reduction in Scope 1 and 2 emissions by 2030¹

Hydro

Hybrid / Biofuels

Utilization of renewable resources for internal energy consumption

Technology leadership

Integration technologies

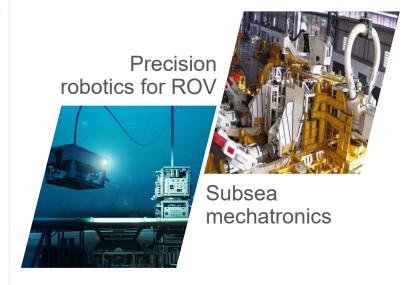

Using differentiated technologies to bring significant additional value as part of an integrated system

Digital and automation

Applying Subsea digital and automation technologies to transform Surface Technologies

Robotics

Utilizing mechatronics to transform subsea production system via robotic and mechanical systems integration

Overview of TechnipFMC segments

Subsea

Subsea products

- ► Trees, manifolds, control, templates, flowline systems, umbilicals and flexibles
- Subsea processing
- ► ROVs and manipulator systems

Subsea projects

- ► Field architecture, integrated design
- ► Engineering, procurement
- ► Installation using high-end fleet

Subsea services

- Drilling systems
- ► Asset management and production optimization

Revenue¹ \$6,057mm Adj. EBITDA¹ \$773.6mm

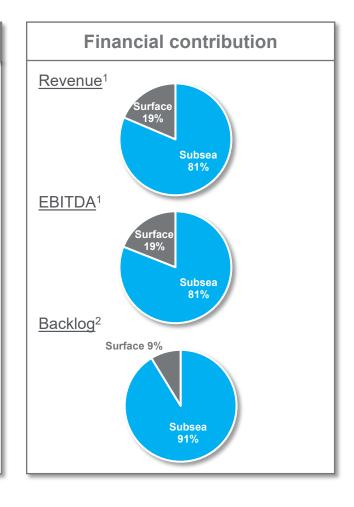

Backlog² \$12.074mm

Surface Technologies

- Drilling, completion and production wellhead equipment, chokes, compact valves, manifolds and controls
- ► Treating iron, manifolds, and reciprocating pumps for stimulation and cementing
- Advanced separation and flow-treatment systems
- ► Flow metering products and systems
- Installation and maintenance services
- Frac-stack and manifold rental and operation services
- ► Flowback and well testing services

Revenue¹ \$1,384mm Adj. EBITDA1 \$181.5mm

Backlog² \$1,157mm

Subsea competitive strengths

Market leading positions built upon innovation and deep industry knowledge

Differentiated offering of integrated products, services: iFEED™, iEPCI™ and iLoF™

Technology advancements to drive greater efficiency and simplification

FEED Studies

Subsea Production Systems

Flexibles

Umbilicals

Installation

IEPCI™

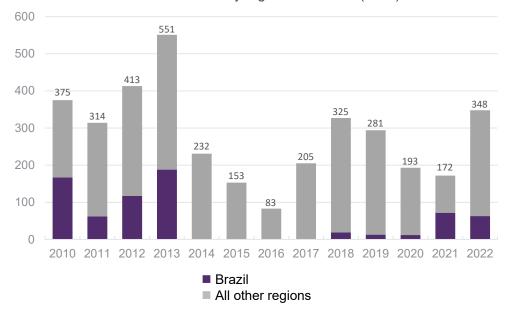

Field Services

SPS / SURF – critical components of offshore development

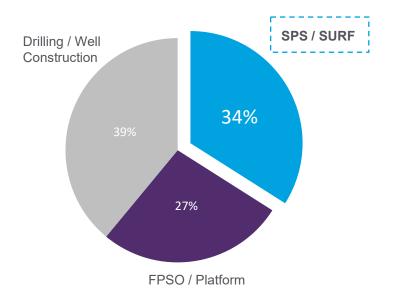

Oil & gas industry has strong history of subsea tree orders

Subsea tree orders by region 2010-2022 (trees)

Source: Wood Mackenzie, March 2023

SPS / SURF is one of the largest components of project costs

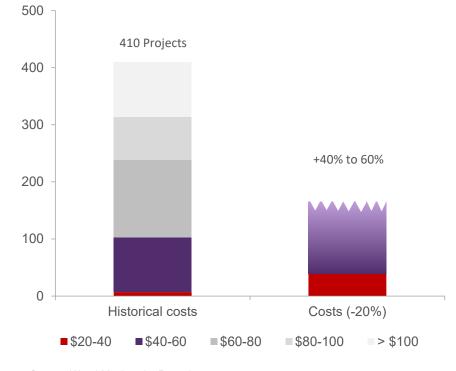

Source: Morgan Stanley Research, TechnipFMC Internal Analysis

Improving project economics for deepwater projects

- More than 400 deepwater discoveries have yet to be developed
- Good progress on deepwater cost reductions with potential for additional savings
- Standardization, technology and strong project execution can deliver sustainable savings
- Integrated business model can reduce costs of SPS/SURF scope

Source: Wood Mackenzie, Rystad

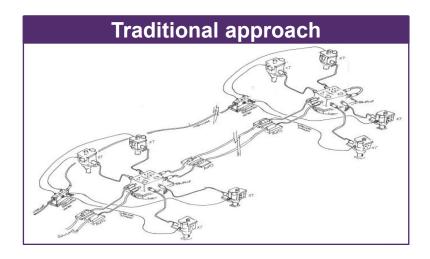

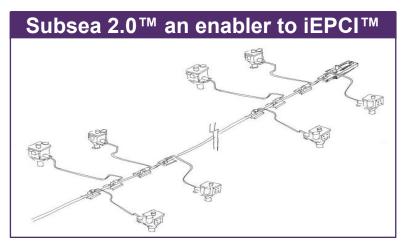

Subsea offers a full suite of capabilities

Conceptual Design Life-of-Field **Project Execution** & FEED¹ and Maintenance Equipment Engineering **Procurement** Construction Installation Maximized supply Unique asset Rationalized subsea reliability and architecture Joint SPS+SURF R&D and uptime Shortened time to first technological and design for improved technology oil and offshore Increased capabilities application and installation through aftermarket Optimized technology combination better planning capabilities Best possible applications line-up to Improved Reduced project Strengthen leverage undertake client performance over Improved field performance interfaces and on procurement challenges the life of field contingencies iLoF™ is a growth iEPCI™ is a differentiator iFEED™ is an enabler engine

Integrated approach redefining subsea project economics

Enhancements

- ➤ One global contractor
- ▶ Integrated procurement
- Optimized subsea architecture
- ▶ Fewer subsea production system interfaces
- ▶ Reduced flowline and riser lengths
- ▶ Less complexity through reduced part counts

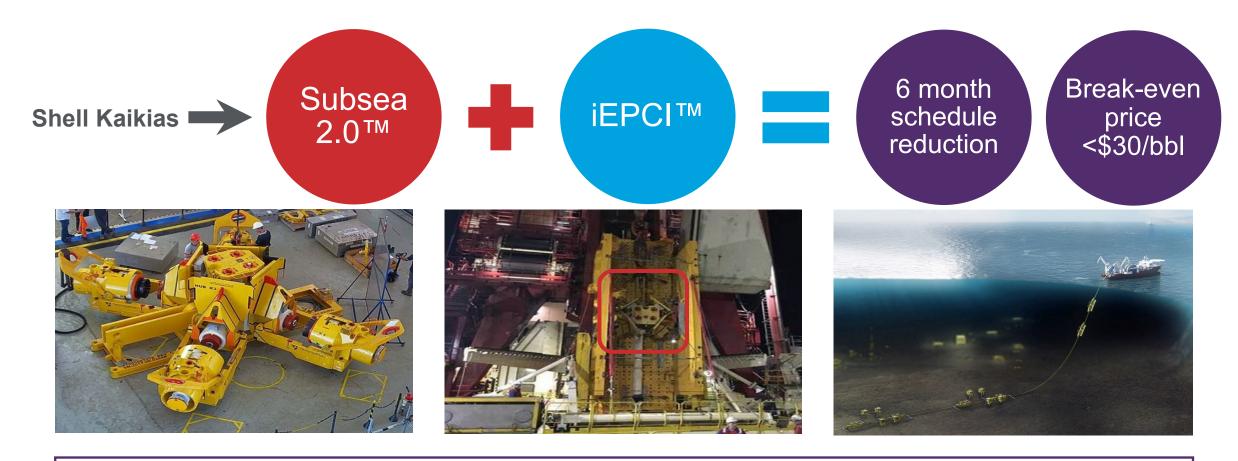

Key benefits

- ▶ Reduced material costs
- ▶ Simplified equipment set-up
- Optimized flow assurance
- Reduced installation phase
- Accelerated time to first oil

A field design incorporating Subsea 2.0™ and iEPCI™ can remove over half of the subsea structures while maintaining the same field operability

Making subsea short-cycle with Subsea 2.0™ + iEPCI™

TechnipFMC is changing the subsea paradigm from a long-cycle to a short-cycle business, using Subsea 2.0™ and a truly integrated approach (iEPCI™) to field development

Unique drivers of Subsea revenue growth

Subsea Services

Installation services

Asset integrity services

Intervention services

- Diversified revenue base of approximately \$1.2 billion in 2022
- Resilient, margin-accretive aftermarket services
- Service potential on industry's largest subsea installed base

Alliance partners

- Long-term, mutually beneficial relationships
- iEPCI™ alliances utilize full integrated offering
- Exclusive alliances result in direct awards

All-electric subsea production systems

Reducing infrastructure to create low carbon opportunities

- Infrastructure and installation time reduced with removal of hydraulic lines, simplified umbilicals and lighter assets
- Enables full field electrification of subsea production system, allowing for use of renewable power alternatives
- Ideal solution for long offsets from host facility, Subsea-to-Beach and unmanned fields
- Allows for more robust digital capabilities while significantly increasing access to field-specific data

Our vision of Subsea

Incremental tie-back opportunity may exceed \$8 billion through 2030¹

Reduction in capital expenditures

Increase in subsea tie-back reach

100% Fields unmanned through robotics, digital technologies

Source: Rystad Energy; McKinsey & Company Energy Insights: Global Energy Perspective, January 2020; TechnipFMC internal analysis

Surface Technologies competitive strengths

Leading market positions in several niche product offerings **Delivering technology that** extends asset life, improves returns

Integrated offering delivers up to \$1m in savings per well, creates unique growth platform

Wellhead

Flowline

Stimulation, Flowback and Pumps

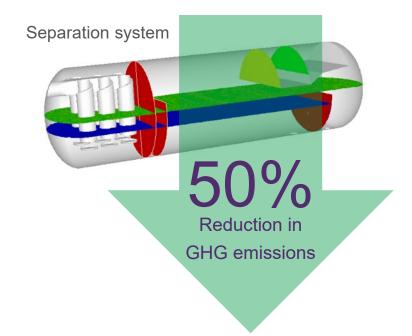

Drilling <u>Midstream</u> Completion **Production**

iProduction™

Replicating the Subsea playbook to transform onshore production

- **Proprietary technology** and **integrated ecosystem** streamlines operations; reduces footprint, GHG emissions, capital costs, time to first oil
- Integrated offering operates under a single digital interface, including our digital twin technology; each site is monitored and controlled remotely
- TechnipFMC is the only provider to fully integrate the delivery process with people, products and services
- Reflects ongoing strategic shift from discrete product sales to fully integrated services for the global onshore production market

Global opportunity set may exceed \$7 billion through 2030¹

>25% Reduction in operator capital expenditures

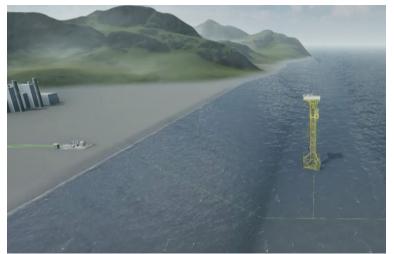

Source: Rystad Energy; McKinsey & Company Energy Insights; TechnipFMC internal analysis

New Energy

Core competencies drive our three strategic pillars

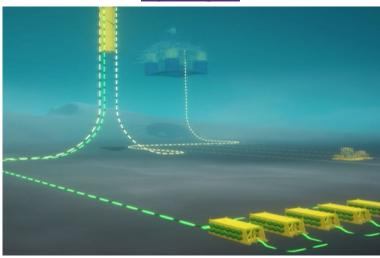

Greenhouse gas removal

Offshore floating renewables

Hydrogen

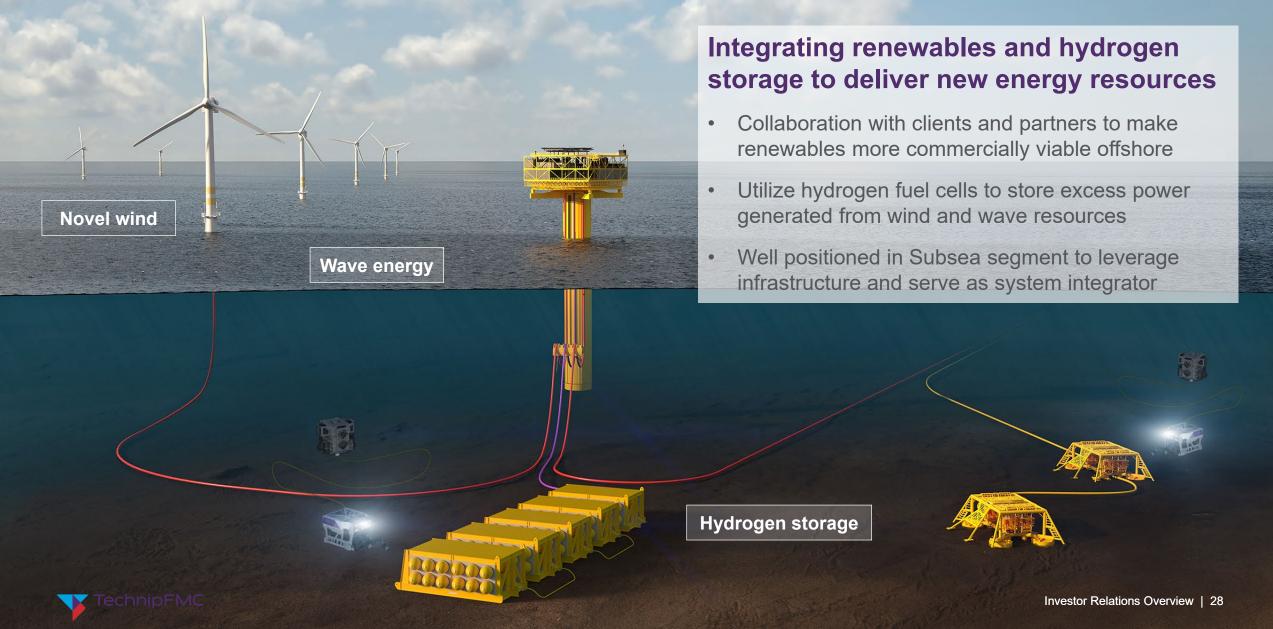

integrated Offshore Novel Energies – iONE™

Market approach driven by 3 main pillars; our role in the long-term path to net zero will be as offshore 'Energy Architect'

- **Greenhouse gas removal** carbon transportation and storage
- Offshore floating renewables floating wind, wave and tidal technologies
- **Hydrogen** Deep Purple offering and digital solutions for better efficiency and energy management

Approaching opportunities in renewable energies with a new execution model, **integrated Offshore Novel Energies – iONE™**

Deep Purple™ – Redefining subsea energy

Q2 2023 Supporting financial data

(In millions, unaudited)

In addition to financial results determined in accordance with U.S. generally accepted accounting principles (GAAP), the third quarter 2023 Earnings Release also includes non-GAAP financial measures (as defined in Item 10 of Regulation S-K of the Securities Exchange Act of 1934, as amended) and describes performance on a year-over-year or sequential basis. Income (loss) from continuing operations attributable to TechnipFMC plc, excluding charges and credits, as well as measures derived from it (including Diluted EPS, excluding charges and credits; Income before net interest expense and taxes, excluding charges and credits ("Adjusted Operating profit"); Depreciation and amortization, excluding charges and credits; Earnings before net interest expense, income taxes, depreciation and amortization, excluding charges and credits ("Adjusted EBITDA"); and Adjusted EBITDA, excluding foreign exchange gains or losses, net; Adjusted EBITDA margin; Adjusted EBITDA margin, excluding foreign exchange, net; Corporate expense, excluding charges and credits; Foreign exchange, net and other, excluding charges and credits; and net debt) are non-GAAP financial measures.

Non-GAAP measures are presented on a gross basis and are not net of tax. Estimates of the tax effect of each adjustment is calculated item by item, applying the relevant jurisdiction tax rate to the pretax amount, unless the nature of the item and/or the tax jurisdiction in which the item has been recorded requires application of a specific tax rate, tax treatment or valuation allowance consideration, in which case the tax effect of such item is estimated accordingly.

Management believes that the exclusion of charges, credits and foreign exchange impacts from these financial measures provides useful perspective on the Company's underlying business results and operating trends, and a means to evaluate TechnipFMC's operations and consolidated results of operations period-overperiod. These measures are also used by management as performance measures in determining certain incentive compensation. The foregoing non-GAAP financial measures should be considered by investors in addition to, not as a substitute for or superior to, other measures of financial performance prepared in accordance with GAAP. The following is a reconciliation of the most comparable financial measures under GAAP to the non-GAAP financial measures.

Net debt	\$	(649.9)	\$	(844.0)	\$	(655.3)

Net (debt) cash is a non-GAAP financial measure reflecting cash and cash equivalents, net of debt. Management uses this non-GAAP financial measure to evaluate our capital structure and financial leverage. We believe net debt, or net cash, is a meaningful financial measure that may assist investors in understanding our financial condition and recognizing underlying trends in our capital structure. Net (debt) cash should not be considered an alternative to, or more meaningful than, cash and cash equivalents as determined in accordance with U.S. GAAP or as an indicator of our operating performance or liquidity.

(In millions, unaudited)

	Three Months Ended September 30.			e Months End	eptember 30,		
		2023		2023		2022	
Cash provided (required) by operating activities from continuing operations	\$	221.9	\$	(8.1)	\$	(214.3)	
Capital expenditures		(43.6)		(153.7)		(94.3)	
Free cash flow (deficit) from continuing operations	\$	178.3	\$	(161.8)	\$	(308.6)	

Free cash flow (deficit) from continuing operations, is a non-GAAP financial measure and is defined as cash provided (required) by operating activities less capital expenditures. Management uses this non-GAAP financial measure to evaluate our financial condition. We believe from continuing operations, free cash flow (deficit) from continuing operations is a meaningful financial measure that may assist investors in understanding our financial condition and results of operations.
