

FMC Technologies Awarded Subsea Systems Contract for Total's Edradour and Glenlivet Fields

October 16, 2014 5:18 PM ET

HOUSTON, Oct. 16, 2014 /PRNewswire/ -- FMC Technologies, Inc. (NYSE: FTI) announced today that it has received an order from Total to supply subsea systems for its Edradour and Glenlivet fields offshore in the West of Shetland area.

FMC Technologies' scope of supply consists of subsea equipment including manifolds and associated connections and controls equipment, wellhead systems, subsea tie back connection equipment and a subsea production tree.

"FMC Technologies is pleased to be supplying the subsea systems for the developments," said Tore Halvorsen, FMC Technologies' Senior Vice President, Subsea Technologies. "By working closely with Total we are able to provide a cost effective solution for developing these important fields."

FMC Technologies, Inc. (NYSE: FTI) is a leading global provider of technology solutions for the energy industry. Named by Forbes® Magazine as one of the World's Most Innovative Companies in 2013, the Company has approximately 19,700 employees and operates 30 production facilities in 17 countries. FMC Technologies designs, manufactures and services technologically sophisticated systems and products such as subsea production and processing systems, surface wellhead systems, high pressure fluid control equipment, measurement solutions, and marine loading systems for the oil and gas industry. This release contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. The word "estimated" and similar expressions are intended to identify forward-looking statements, which are generally not historical in nature. Such forward-looking statements involve significant risks, uncertainties and assumptions that could cause actual results to differ materially from our historical experience and our present expectations or projections. Known material factors that could cause our actual results to differ from those in the forward-looking statements include the Company's ability to successfully deliver, and Total's acceptance of, the subsea products ordered. For additional information regarding known material factors that could cause actual results to differ from projected results, please see the Company's Annual Report on Form 10-K for the year ended December 31, 2013, as well as its other filings with the Securities and Exchange Commission. The Company cautions you not to place undue reliance on any forward-looking statements, which speak only as of the date hereof. The Company undertakes no obligation to publicly update or revise any of its forward-looking statements after the date they are made, whether as a result of new information, future events or otherwise.
