

FracNow™ Auto Greasing System

Grease on demand

TechnipFMC's Auto Greasing System eliminates costly manual greasing operations and red zone exposure, allows faster transition time between stages and takes greasing operations out of the critical path. Our Auto Greasing System is easily scalable and can accommodate any pad configuration. This digital system comes standard with real-time data logging, system safeguards, manual overrides and HMI or smart device operation.

System Specifications:

- ▶ Intrinsically safe (Class 1 Div 1)
- ▶ Rated to 20K working pressure
- ▶ Cold weather capable
- ▶ Able to grease valves under pressure

Why Use the Auto Greasing System?

Operational efficiency

- ▶ Reduced NPT
- ▶ Faster transition means extra frac stages per day
- ▶ 75% reduction in greasing time
- ▶ Compact footprint
- ▶ Manual override

Cost reductions

- ▶ 10 - 15% less grease per job
- ▶ Operated by single technician

Remote operations

- ▶ No red zone exposure
- ▶ Real-time data log
- ▶ HMI with smart device interface
- ▶ Direct integration with TechnipFMC's full CyberFrac™
