

# FuelFACS™ OnDemand

Manage and automate your facility from a single integrated interface

## Cloud-based terminal support

Manage measurement, accounting and control by integrating terminal automation systems, host systems and smart measurement equipment. We have re-invented the proven functionality of our on-premises solution to create FuelFACS OnDemand. A unified solution, leveraging cloud-based architecture that provides multi-terminal support, is secure and easy to access, improves scalability and performance while reducing initial investment and operational costs.

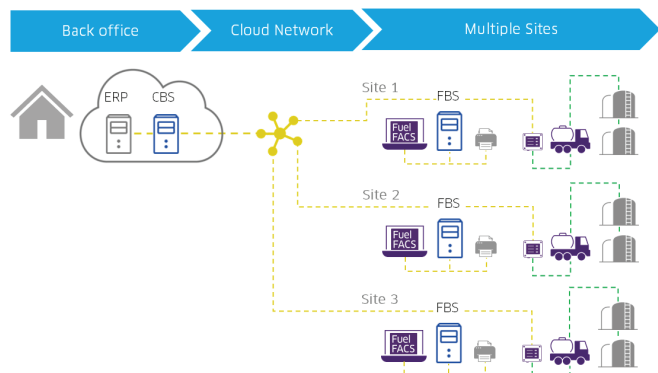

## FuelFACS Facility Business System (FBS) - Coming soon

- ▶ Manages product movement and inventory at the terminal site
- ▶ Securely manages terminal access
- ▶ Multi-level inventory accounting
- ▶ Tank-to-tank transfers and reassignment
- ▶ Bulk product receipts and disposals
- ▶ Manages loading and unloading orders

## FuelFACS Central Business System (CBS)

- ▶ Ties all automation systems together into one single, enterprise wide resource
- ▶ Real-time visibility and control of the enterprise
- ▶ Real-time reporting of product movement and inventories
- ▶ Real-time acquisition, storage and distribution information
- ▶ Cost effective data exchange between back office
- ▶ Reduced IT costs

## Cloud based architecture
